Addressing Gaps and Advancing Scholarship in the Study of Psychological Contracts Sarah Bankins,Yannick Griep,Samantha D. Hansen,2024-08-09 This book

acknowledges the significant changes in the context and contours of the traditional employee employer relationship over the last several decades and highlights the emergence of exciting new directions for the study of psychological contracts PC New technologies and emergent forms of work are extending the temporal and spatial boundaries of employment such as through the rise of the shared economy and gig workers uptake of virtual work and flexible work arrangements and the use of off site co working spaces Technology use now permeates many aspects of jobs supported by artificial intelligence and machine learning technology Factors that motivate work are also changing as new generations of employees embrace their callings

and organizations increasingly recognize their responsibilities to society and to employee wellbeing. These changes are altering the traditional employer employee relationship and are key motivators of this volume. The chapters in this volume chart new directions for PC research over the next decade by widening the theoretical and methodological lenses used to explore PC processes. This book will be valuable to advanced students, researchers and practitioners in organizational psychology, organization studies, workplace training and human resource management, as well as those interested in improved performance of people and organizations. The chapters in this book were originally published as a special issue of the European Journal of Work and Organizational Psychology.

Customer Service for Hospitality and Tourism Simon Hudson, Louise Hudson, 2012-11-02. Customer service is of critical importance for the tourism and hospitality sector now more than ever before as customers are looking to increase value for money and are less forgiving of mediocre service. However, despite its importance, quality customer service is the exception rather than the norm in many parts of the world. *Customer Service for Hospitality and Tourism* is a unique text and vital to both students and practitioners as it explains not only the theory behind the importance of customer service but also acts as a guidebook for those wishing to put this theory into practice. In essence, it is the whys and hows of customer service. It is easy to read, very current and full of references to all the latest research from both academic and practitioner literature. Chapters cover important topics such as the financial and behavioural consequences of customer service, consumer trends influencing service, developing and maintaining a service culture, managing service encounters, the importance of market research, building and maintaining customer relationships, providing customer service through the servicescape, the impact of technology on customer service, the importance of service recovery and promoting customer service internally and externally. Key features include An At Your Service Spotlight at the beginning of each chapter, which focuses on the achievements of successful individuals related to the art of customer service. Each chapter contains a Service Snapshot, short real life cases to illustrate a particular concept or theoretical principle presented in the chapter. Detailed international Case Studies, which cover a variety of sectors, organizations and regions, designed to foster critical thinking. The cases illustrate actual business scenarios that stress several concepts found in the chapter. They analyze customer service in the US, South America, South Africa, Europe, Russia, Australia, China, Canada, Korea and Dubai.

Toward a Scholarship of Practice John M. Braxton, 2017-07-17. Ensure that your institutional policy and practice are guided by empirical research and scholarship rather than by mere common sense, trial and error or a shoot from the hip basis for institutional action. The two primary goals of a scholarship of practice are 1) improving administrative practice in higher education and 2) developing a knowledge base to guide such practice. To attain these goals, campuses must use the findings of empirical research as the basis for developing institutional policy and practice. The result: Improved administrative practice in higher education, both at a campus level and for higher education as a social institution. This is the 178th volume of the Jossey Bass quarterly report series, *New Directions for Higher Education*. Addressed to presidents, vice presidents, deans and other
