Towards an Elite Theory of Economic Development Tomas Casas-Klett,2025-11-17 This profoundly ambitious theoretical work centers on value understood as everything humans deem worth appropriating Every society is hierarchical and the top echelons are dominated by elites the quality of which in the business politics and knowledge arenas determines economic and human development All elites run elite business models that both create and extract value originate or transfer risk and use their power and agency to shape institutions This book argues that when inclusive value creation outweighs extractive value transfers the outcomes for society at large are positive Sustainable value creation happens when intra elite contests result in more innovation than rent seeking more free trade than protectionism and more competition than monopolies Leveraging diverse ideas from economics value sociology power political economy the distribution of value and management the value creation and appropriation framework the book advances a sweeping interdisciplinary framework that positions the meso level elite system at its core This extends the institutional perspective and acts as the transmission mechanism between the micro level firm and the macro level political economy A wealth of elite

business model cases are considered throughout its pages ranging from Neolithic grain to AI and from Caesar to Trump to further an elite theory of economic development that transcends traditional Left Right debates is rooted in its own speculative philosophy and yet is highly practical with proposals for structural reform cost of equity calculations and an approach to sustainability based on weighting and offsetting extractive transfers This economic treatise supplies the conceptual tools for a realistic account of how the world works today and in its discussion of elite judgment offers an ethical framework to guide elite transformational leadership It will be essential reading for researchers policymakers and business leaders around the world looking for fresh ideas on how to navigate and reappraise how we address current realities
