one of those children knew more about cotton cloth at the end of that lesson than half the graduates Of our high schools The time and labor required to Obtain the material for this lesson the dried cotton plant the toy gin spinning machine and loom were insignificant as compared with the results achieved Every mother would find it the easiest thing in the world to make a collection for nursery teaching which would be a source Of constant delight and instruction to the children every walk might produce something for the collection About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com **A Creative Guide for Preschool Teachers** Joanne Wylie,1972
