Electronic Governance with Emerging Technologies Fernando Ortiz-Rodríguez, Sanju Tiwari, Patience Usoro Usip, Raul Palma, 2023-09-15 This book constitutes the refereed proceedings of the Second International Conference on Electronic Governance with Emerging Technologies EGETC 2023 held in Poznan Poland during September 11 12 2023 The 15 full papers and one short paper presented were thoroughly reviewed and selected from the 76 submissions This volume focuses on the recent developments in the domain of eGovernment and governance of digital organizations also aims to shed light on the emerging research trends and their applications *Reconstructing the International Tax System* Elizabeth Rosenthal, 2025-05-27 Source based taxation and the arm's length standard have been foundational elements of the international tax system for many decades With the advent of the highly digitalized platform firm the OECD and many other stakeholders assert that these principles have been rendered obsolete In their stead these stakeholders have proposed an alternative hybrid international tax system Under this proposed hybrid system the long standing profit allocation rules would be applied in the first instance to determine the preliminary attribution of in scope multinational firms taxable income to individual taxing jurisdictions These results would then be subject to a secondary reallocation designed to ensure that a portion of such firms taxable income is attributed to and taxable by jurisdictions in which consumers and users reside market jurisdictions This secondary allocation the core of the OECD's Pillar One and an essential element of its two pronged Pillar One Pillar Two Solution explicitly deviates from both the arm's length standard and the principle of source based taxation For many reasons examined in this book the OECD's Pillar One would not provide for the effective taxation of highly digitalized platform firms and by extension it would not stabilize the international tax system The author argues that source based taxation and the arm's length standard are entirely compatible with the attribution of a portion of highly digitalized platform firms taxable income to market jurisdictions However new transfer pricing methodologies and a revised definition of control for transfer pricing purposes are required to achieve this result Combining important findings and insights from academic research in a variety of fields with the author's extensive practical experience in both public and private spheres this book is appropriate for academics as well as private sector advisors in the fields of transfer pricing and international tax chief financial officers of multinational corporations and tax policy analysts [IT Consultant Diploma - City of London College of Economics - 12 months - 100% online / self-paced](#) City of London College of Economics, Overview This course deals with everything you need to know to become a successful IT Consultant Content Business Process Management Human Resource Management IT Manager's Handbook Principles of Marketing The Leadership Information Systems and Information Technology IT Project Management Duration 12 months Assessment The assessment will take place on the basis of one assignment at the end of the course Tell us when you feel ready to take the exam and we'll send you the assignment questions Study material The study material will be provided in separate files by email download link **Bericht über die**
