The old versions had two main problems: they were a little ugly and a little quiet. With the Amazon Echo Dot 3rd Gen, Amazon addresses both issues, delivering an improved smart speaker that's ideal for home control and a little bit of light music or radio. Gone is the plain plastic case of the old version, and the Amazon Echo Dot 3rd Gen has a textured material case which makes it closer in appearance to the Google Home Mini. It's a vast improvement over the original, letting the new Dot blend in with your decor rather than sticking out as an obvious bit of tech. Available in charcoal grey and sandstone, there are now three choices of finish to further extend the options. On top, you get the same control as on the previous Echo Dot: there are volume buttons, a mic mute button to stop Alexa listening in, and an activation button just in case the Dot doesn't want to pick up your voice. While physical controls are useful to have most of the time, you won't need them.
