Who Gets In and Why Jeffrey Selinger, 2020-09-15 From award-winning higher education journalist and New York Times bestselling author Jeffrey Selinger comes a revealing look from inside the admissions office, one that identifies surprising strategies that will aid in the college search. Getting into a top-ranked college has never seemed more impossible with acceptance rates at some elite universities dipping into the single digits. In *Who Gets In and Why*, journalist and higher education expert Jeffrey Selinger dispels entrenched notions of how to compete and win at the admissions game and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a good college. Hint: it's not all about the sticker on the car window. Selinger, who was embedded in three different admissions offices: a selective private university, a leading liberal arts college, and a flagship public campus, closely observed gatekeepers as they made their often agonizing and sometimes life-changing decisions. He also followed select students and their parents, and he traveled around the country meeting with high school counselors, marketers, behind-the-scenes consultants, and college rankers. While many

have long believed that admissions is merit based rewarding the best students Who Gets In and Why presents a more complicated truth showing that who gets in is frequently more about the college s agenda than the applicant In a world where thousands of equally qualified students vie for a fixed number of spots at elite institutions admissions officers often make split second decisions based on a variety of factors like diversity money and ultimately whether a student will enroll if accepted One of the most insightful books ever about getting in and what higher education has become Who Gets In and Why not only provides an unusually intimate look at how admissions decisions get made but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests *Top Universities Guide* John O'Leary,Nunzio Quacquarelli,Martin Ince,2009 *The Best 390 Colleges, 2025* The Princeton Review,Robert Franek,David Soto,Stephen Koch,Aaron Riccio,2024-08-27 As seen on the TODAY Show on NBC NO ONE KNOWS COLLEGES LIKE THE PRINCETON REVIEW This comprehensive guide to the nation s best colleges provides in depth profiles on schools best of lists by interest and tons of helpful student driven details that will help you or your student choose their best fit colleges The Princeton Review s college rankings started in 1992 with surveys from 30 000 students Over 30 years and more than a million student surveys later we stand by our claim that there is no single best college only the best college for you and that this is the book that will help you find it STRAIGHT FROM STUDENTS TO YOU 390 in depth school profiles based on candid feedback from 160 000 students covering academics administration campus life and financial aid Insights on unique college character social scene and more Direct quotes from students about their school s professors campus culture career services and more RANKING LISTS RATING SCORES Lists of the top 25 colleges in 50 categories based on students opinions of academics campus life facilities and much more Ratings for every school on Financial Aid Selectivity and Quality of Life DETAILED ADMISSIONS INFORMATION The Inside Word on competitive applications test scores tuition and average indebtedness Comprehensive information on selectivity freshman profiles and application deadlines at each school Plus Free access to 2 full length practice tests online 1 SAT and 1 ACT to help you prep for the important admissions exams part of your admissions journey [Rugg's Recommendations on the Colleges](#) Frederick E.
