Ox Cart To Automobile Social Change In Western New York:

Accommodating the Republic Kirsten E. Wood, 2023-12-05 People have gathered in public drinking places to drink, relax, socialize, and do business for hundreds of years. For just as long, critics have described taverns and similar drinking establishments as sources of individual ruin and public disorder. Examining these dynamics as Americans surged westward in the early nineteenth century, Kirsten E. Wood argues that entrepreneurial improvement-minded men integrated many village and town taverns into the nation's rapidly developing transportation network and used tavern spaces and networks to raise capital, promote innovative businesses, practice genteel sociability, and rally support for favored causes, often while drinking the staggering amounts of alcohol for which the period is justly famous. White men's unrivaled freedom to use taverns for their own pursuits of happiness gave everyday significance to citizenship in the early republic. Yet white men did not have taverns to themselves. Sharing tavern spaces with other Americans intensified white men's struggles to define what and for whom taverns should be. At the same time, temperance and other reform movements increasingly divided white men along lines of party conscience and class. In both conflicts, some improvement-minded white men found common cause with middle-class white women and Black activists who had their own stake in rethinking taverns and citizenship.

New York State: Peoples, Places, and Priorities Joanne Reitano, 2024-04-30 Now in its second edition, *New York State: Peoples, Places, and Priorities* is an accessibly written book that explores the ever-shifting dynamics of New York State history in a single volume. The text is organized both chronologically and topically, balancing political, economic, social, and cultural history. It discusses key figures, groups, movements, and controversies upstate and downstate. Each chapter is divided into teachable, digestible sections that examine the major developments and challenges of that period, with timelines and lists of online resources to aid student understanding. The new edition brings New York State's history into the present with coverage of recent political and economic developments, the COVID-19 pandemic, immigration, and global warming. Throughout the book, material was added concerning the American Revolution, the Civil War, women's rights, and environmental justice. Artwork, maps, charts, and textboxes illuminate the state's rich history. Analytical questions accompanying figures and texts encourage deeper engagement with the past. Designed for undergraduates, this book is a concise and updated account of New York State's history over the centuries, with a wealth of resources to benefit students and instructors alike.

Ox Cart to Automobile Thomas Rasmussen, 2009-08-16 This book explores changes in economic fortunes, social life, and political issues over 200 years in western New York. Why did villages spring up in particular locations in 1820? Why did dairy farming expand during the 1850s and then contract in the 1920s? Why have so many factories in western New York closed their doors since World War II? As the ox cart was replaced by the railroad, which in turn was replaced by the automobile, men and women in western New York were faced with the option to choose to farm in new ways or live and work in new places. In this book, Native Americans and early settlers, dairy farmers and milk factories, husbands and wives on the farm, shopkeepers and customers in
