When Evil Strikes Sunday Bobai Agang, 2016-06-22 Human hostility is not the narrative of a selected few Since the fall of the grandparents of the human family Adam and Eve all humans have continued to participate in the reality of evil Accordingly the question is no longer whether evil will strike but rather when evil strikes how should humans particularly Christians respond to it This book offers a relevant and effective theology and ethics for addressing the issue of Christian response to violence in Nigeria and beyond It situates the whole gamut of the reign of human hostility in its various manifestations self interest and greed for power deception and social injustices governmental official corruption terrorism and so on It encourages humans to take seriously both the fact of God creating humans good and the fall serving as the gateway of evil into the human race It recognizes the complexity of human problems Yet it offers possibility for just peacemaking In spite of the horrific violence across the globe humans are still able to do tremendous good Thus the book recognizes the paradox of humanity humans are capable of doing tremendous good and equally capable of doing tremendous evil

The Language Loss of the Indigenous G. N. Devy, Geoffrey V. Davis, K. K. Chakravarty, 2016-02-26 This volume traces the theme of the loss of language and culture in numerous post colonial contexts It establishes that the aphasia imposed on the indigenous is but a visible symptom of a deeper malaise the mismatch between the symbiotic relation nurtured by the indigenous with their environment and the idea of development put before them as their future The essays here show how the cultures and the imaginative expressions of indigenous communities all over the world are undergoing a phase of rapid depletion They unravel the indifference of market forces to diversity and that of the states unwilling to protect and safeguard these marginalized communities This book will be useful to scholars and researchers of cultural and literary studies linguistics sociology and social anthropology as well as tribal and indigenous studies
