offers revealing fresh interpretations of familiar paintings In this handsome book a leading authority on Impressionist painting offers a new view of this admired and immensely popular art form John House examines the style and technique subject matter and imagery exhibiting and marketing strategies and social political and ideological contexts of Impressionism in light of the perspectives that have been brought to it in the last twenty years When all of these diverse approaches are taken into account he argues Impressionism can be seen as a movement that challenged both artistic and political authority with its uncompromisingly modern subject matter and its determinedly secular worldview Moving from the late 1860s to the early 1880s House analyzes the paintings and career strategies of the leading Impressionist artists pointing out the ways in which they countered the dominant conventions of the contemporary art world and evolved their distinctive and immediately recognizable manner of painting Focusing closely on the technique composition and imagery of the paintings themselves and combining this fresh appraisal with recent historical studies of Impressionism House explores how pictorial style could generate social and political meanings and opens new ways of looking at this luminous art

Painting Methods of the Impressionists Bernard Dunstan,1976 Impressionism in Britain Kenneth McConkey,Anna Gruetzner Robins,1995-01-01

Late in his career Claude Monet returned to London to paint the fog that had entranced him years before The resulting sequence of pictures represents some of the fascination that French painters felt for Britain Similarly many British collectors and young painters embraced and were influenced by the work of the French Impressionists This book describes the activities of the French Impressionist painters on their visits to Britain considers the dissemination of Impressionist painting through British dealers and collectors explores the response of artists from Britain and Ireland to the Impressionist movement and sets all of these against the backdrop of late Victorian and Edwardian Britain McConkey and Robins describe the work of Monet Pissarro Sisley and other Impressionists working in London showing how this art influenced the community of young British painters disenchanted with British art schools and art exhibiting standards The authors investigate the role played by two innovative painters who were American expatriates James McNeill Whistler and John Singer Sargent And they explain how such artists as William Orpen George Clausen Stanhope Forbes Henry La Thangue Walter Sickert and Philip Wilson Steer sought out new and radical approaches to picture making formed new secessionist art societies and articulated new concepts of the role of art rejecting historical pageants and fashionable aestheticism and focusing on modern rural and urban conditions The book is the catalogue of an exhibition that will be at the Barbican Art Gallery in London from January to March 1995 and then move to Dublin

Painting Like the Impressionists Bruce Yardley,2021-07-26

Impressionism an art movement pioneered by a handful of avant garde painters based in Paris in the 1870s gave academic oil painting a vivacity and spontaneity it had previously lacked and remains to this day the single most popular style of art for gallery goers and amateur painters alike This elegantly written book by a professional artist and scholar is both an instructional guide to incorporating Impressionist techniques into your own painting and an illuminating

investigation into how those first Impressionists actually painted their pictures As such it will fascinate both the painter and the art historian This new book provides detailed advice on paints brushes and canvas as used by the original Impressionists and still widely available today It discusses the process of making an Impressionist painting from initial vision to final completion and analyses the role of composition light and tone colour and paint handling Finally it gives an overview of the subject matter most closely associated with the Impressionists [Look Closer](#) ,2021 Introduces children aged 8 and above to the most acclaimed artists of French Impressionism including Claude Monet Pierre Auguste Renoir Camille Pissarro and Paul C zanne Featuring works drawn from the collection of the Museum of Fine Arts Boston this book encourages children to look closely at Impressionist paintings and learn about the artists and their ideas Engaging texts and practical activities inspire young art enthusiasts to experiment with colour composition and painting techniques and create their own drawings and paintings publisher s website

The Art of Impressionism Anthea Callen,2000-01-01 Drawing on scientific studies of pigments and materials artists treatises colourmen s archives and contemporary and modern accounts Anthea Callen demonstrates how raw materials and paintings are profoundly interdependent She analyses the material constituents of oil painting and the complex processes of making entailed in all aspects of artistic production discussing in particular oil painting methods for landscapists and the impact of plein air light on figure painting studio practice and display Insisting that the meanings of paintings are constituted by and within the cultural matrices that produced them Callen argues that the real modernity of the Impressionist enterprise lies in the painters material practices **BOOK JACKET**

The Impressionists Francesco Salvi,2008 This book describes the development of Impressionism and presents the eleven artists who made up the Impressionist group including reproductions and analyses of their work *Techniques of the Impressionists* Anthea Callen,1982 Works by Manet Degas Renoir Monet and other artists are examined to reveal the elements of composition light color form and visual effects that mark the impressionist movement in painting

Impressionism Emilie Dufresne,2021-07-15 To many impressionist painters are the best known From Edgar Degas to Mary Cassatt the impressionists created beautiful works that are found in museums all over the world and even more prints of them are found in homes This book profiles some of these big name impressionists and shows their famous pieces Guided by a friendly gallery worker readers investigate what features one finds in impressionist works as well as the differences between a gallery and a museum Activities throughout the book encourage readers to try their hand at impressionist techniques and ideas

Impressionist Painting Its Genesis and Development Wynford Dewhurst,2023-02-09 Excerpt It may perhaps be interesting to the readers of this book to give a short account of its origin From the earliest days of my pupilage to art I had been instinctively drawn towards the paintings of Turner Corot Constable Bonington and Watts with an intense admiration for their manner in viewing and methods of recreating nature upon their canvases and in later years I had been fascinated by the works of more modern artists such as La Thangue George Clausen Edward Stott and Robert Meyerheim In 1891 a

student in Paris I found myself face to face with a beautiful development of landscape painting which was quite new to me Impressionism together with its numerous progeny of eccentric offshoots was at the time causing a great furore in the schools Curiously enough I had been charged with copying Monet's style long before I had seen his actual work so that my conversion into an enthusiastic Impressionist was short in fact an instantaneous process

Impressionists in Winter

Charles S. Moffett, Eliza Rathbone, Katherine Rothkopf, Joel Isaacson, 2003-04-19

Impressionists in Winter Effets de Neige presents the first thorough investigation of the subject of Impressionist winter landscape The subject of winter clearly the most inhospitable season for plein air painting provides some of the most exceptional and most spellbindingly beautiful paintings in Impressionism No exhibition and no publications in the literature on Impressionism have been devoted to this theme before While such a thematic approach might seem at first blush a superficial one the subject of this exhibition goes to the heart of one of the central issues of Impressionism a dedication to painting specific effects of weather and light that is unprecedented in the history of art Inspired by Alfred Sisley's Snow at Louveciennes in The Phillips Collection this exhibition of sixty three works presents an opportunity to consider the subject of snow in Impressionist painting in an unprecedented way While anyone might have come across one or two of these exceptional works in various works in this country or abroad it comes as a surprise to most to learn that the Impressionists painted hundreds of paintings of snow or effets de neige as they came to be called Of all the Impressionists three artists especially were drawn to paint effets de neige Claude Monet Alfred Sisley and Camille Pissarro Their shared fascination with these effets led all three to repeatedly seek out opportunities to paint landscapes in snow Yet each brought to the subject a highly individual response that we find reflected in the paintings assembled here In addition to these three artists Pierre Auguste Renoir Gustave Caillebotte and Paul Gauguin also painted snowscapes though far fewer Renoir's characteristic interest in a social gathering of skaters in the Bois de Boulogne Caillebotte's dramatic elevated views over Paris and Gauguin's rare Brittany snowscapes add dimension and contrast to the dedicated pursuit of winter landscape just outside Paris of Monet Sisley and Pissarro The result is a wider range of winter scenes from the bucolic French countryside to ice floes on the Seine from the paths and roads of small villages to the boulevards and rooftops of Paris Their common ground is an obsession with winter light Most of us do not think of Paris or the surrounding countryside covered in snow We do not anticipate a blizzard impeding winter travel to this part of the world nor have we ever seen the Seine frozen solid A very different weather pattern prevailed during the late 19th century Snowfalls blizzards and frost were a fairly common winter occurrence Two of the most severe periods of extended cold since 1840 occurred during the winters of 1879-80 and 1890-91 In order to provide a backdrop of recorded weather conditions of the period we brought together documentation from numerous sources to describe precisely the winter weather during the years covered by this exhibition The weather was at times described as wolf like or Siberian and once was compared to the North Pole These vivid accounts not only have helped us to assign dates to certain undated works but also have provided a

context for appreciating the impact of weather conditions on life in France in the late nineteenth century The Art of the Impressionists Scott Reyburn,1988 This survey explores the atmosphere in mid 19th century Paris and the struggle of artists who wanted to break away from the Romantic and realist traditions The sections are divided as follows painting in Paris in the 1860s Impressionist landscape painting Impressionists up to the first group exhibition March May 1874 the Salon des Refuses high Impressionism in the mid to late 1870s the problems of Post Impressionism late 1870s 1880s and the wider influence of Impressionism in the late 19th century The work of the major artists Monet Boudin Cassatt Constable Manet Morisot Cezanne and Sisley is analysed and illustrated in detail and placed in the context of new techniques in painting and new methods in pigment production The Impressionists William Gaunt,1995 108 plates in full color *Paint with the Impressionists* Ramboro Books,1998-11 **Color Your Own Monet and the Impressionists** none,2016-05-31 Reimagine your favorite works of art from Claude Monet and other impressionist artists with this inspired coloring book Discover and experience the magic and awe inspiring artwork of world renowned impressionist artists with Thirty of the most captivating Impressionist paintings have been meticulously reproduced as black and white line art that can be colored using your favorite medium pens paint pencils or even crayon Color Your Own Monet and the Impressionists has a sturdy three millimeter board cover that acts as an easel for easy coloring and provides a realistic artistic experience Each illustration is printed on a heavy paper stock and the book includes an index of the original paintings which are reproduced in full color on the inside front and back covers to help you to match the artists palates or inspire you to mix your own colors **The Impressionists** Martha Kapos,1991 A group of young artists in 1874 in opposition to the established authority of the Salon and the Academy decided to show their work directly to the public in an exhibition which they organized themselves The artists forming the core of this group Pissarro Degas Sisley Cezanne Monet Renoir and Morisot came to be known as the Impressionists Seen to be following the independent spirit of Manet they were immediately identified as the avant garde and their first exhibition became an historic landmark in the development of modern art We now tend to see the landscapes of Impressionist paintings as perfect images of nature It is easy to overlook their startling and fragmented appearance at the time they were painted The documents in this book show how the paintings looked to contemporary eyes to both the critics and the artists Some of the criticism these paintings received is almost as famous as the works themselves and several important documents appear here in English translation for the first time The book tells the story of the personal struggles debates problems and solutions involved in a new way of painting that quickly led in unforeseen directions and took enormous risks with the traditional means of representing the world in art These experiences are revealed in the letters and recorded comments of the artists themselves and in the writings of friends and contemporary critics many of whom such as Baudelaire Zola Valery Mallarme Huysmans Laforgue and Mirbeau were also novelists and poets The continuing interpretation of Impressionism within the changing art and art criticism of the twentieth century is examined through the

writings of artists such as Leger Kandinsky Masson Matisse and Hofmann as well as recent critics philosophers and art historians including Meyer Schapiro Gaston Bachelard Clement Greenberg and Lawrence Gowing The text is illustrated with 116 colour plates and 117 black and white reproductions of photographs documents and contemporary cartoons prints and drawings After Harvard Martha Kapos studied painting and the history of art at the Chelsea School of Art where she is now teaching Her art criticism has appeared in various magazines including Artscribe Art Monthly and Screen A collection of poems was published in 1989 by the Many Press
