**Generational Use of New Media** Leslie Haddon, Enid Mante-Meijer, 2016-04-15 Generational Use of New Media examines and contrasts how younger and older people representing different generations engage with the new media that they increasingly encounter in everyday life. Thematically organized and offering comparative analyses of the generational use of new media and technology, this timely volume presents the latest research and rich new empirical material gathered in the EU, USA, and Hong Kong to reflect on societal practices and the practical implications of building a more inclusive information society.
