*Life Goes Both Ways* Willy Vil, 2024-08-05 The story *Life Goes Both Ways* is a true story that is about a twenty-year-old who just finished high school from abroad and moved to the USA without his mom, dad, and friends. Due to the speech impediment, life was too difficult for him. When he left, he made lots of commitments to his family. In the start, he felt that everything was going to be easy to the point where he was going to maintain a reasonable life right away. Shortly, he discovered that things didn't work like that in the United States of America. Some types of items ought to be done sooner before you could get yourself situated. At foremost, he was living with his brother J, but things didn't work out nicely between the two of them. In a brief time in the country, he was out of his brother's home with no place to stay. Luckily, an elder companion of his promised him to stay in his place until he gets his life in order. Therefore, he jumped back and forth from position to position until he chose to go to school to construct some modifications in his life. He attempted to go to school, but it didn't work out for him. It wasn't until he met a professor who used to teach French at a university in Paris who showed him some methods about how to write essays in the English language. Ever since, he observed he was doing very well in school. He managed to get his associate's in business entrepreneurship but then quit going to college. After a few years, he met his wife and they had three boys together and bought a house. Due to union obligations and taking care of the children, he couldn't afford to go back to school. His life was focused on the children's education and work. After the children graduated from college and had successful careers, he decided to go back to school to finish what he started. After fifty-plus years during COVID time, he went back to school and managed to graduate with honors. He went to Purdue University Global where he got himself a degree in business administration. He was an exceptional student too. Information in the book showcased that life went both ways. At certain times in life, there would be no way out; other times, things would be floating smoothly. At first, the future didn't appear very good for the young man in this country. With hard work, commitment, and the support of a few good people, he managed to adjust certain things and at last create an exorbitant life for himself. Things were challenging at the beginning, but he turned a bunch of negative stuff into positive ones. Nevertheless, I think that we need good tutors to teach us about the facts of life. In that case, our parents are the ideal ones. After all, I believe very strongly that we should listen to our mom and dad more often because their words contain valuable lessons to teach us.

**Take Control of Sequoia** Joe Kissell, 2025-04-29  
 Get up to speed quickly with macOS 15 Version 1.2 updated April 29, 2025  
 macOS 15 Sequoia is one of Apple's most ambitious updates in years. Along with the usual range of new features, it introduces Apple Intelligence, which permeates many parts of the system and fundamentally changes the sorts of things you can do with your Mac and how you do them. This book is your complete guide to what's new in Sequoia. Sequoia adds a great many features to macOS, although some of them didn't appear until later releases. This book now up to date through version 15.4.1 covers all the changes so far. You'll learn about Apple Intelligence capabilities, new window tiling features, iPhone mirroring, videoconferencing tools, the much-discussed Passwords app, how Siri is becoming more powerful, new ways of formatting messages in the Messages app, additional features in Notes, among other changes. Joe also walks you carefully through the upgrade process from earlier versions of macOS. This book teaches you things like: How to tell whether your Mac is compatible with Sequoia. Steps you should take before upgrading. How to perform an in-place upgrade or do a clean install and migrate your old data from a backup. What's new in the System Settings app. Using new Safari 18 features such as page highlights, a redesigned Reader view, a tool to remove distracting page elements, and a new video viewer. What Apple Intelligence can do so far, including Siri changes, ChatGPT integration, writing tools, and image generation. The many ways you can now tile your windows and how to turn off the annoying bits. What the new Passwords app can and can't do, and why it probably won't replace your current password manager. Using the new iPhone Mirroring app to interact with your iPhone right on your Mac's screen. How to enhance video calls using apps like FaceTime, Zoom, or Slack with background replacement and better screen sharing controls. Ways to format text and add animations in Messages, plus smart replies, scheduled replies, and emoji or sticker tapbacks. New ways to use Notes, including new text formatting options, transcription of live audio, collapsible sections, and text highlighting. How to use Math Notes for calculations without a calculator or spreadsheet, and not just in the Notes app. Small but interesting changes throughout macOS, such as accessibility improvements and new capabilities for AirPods. Improvements to bundled apps, including Calculator, Calendar, Finder, Freeform, Home, Mail, Maps, Music, Photos, Podcasts, Reminders, TV, and Weather.
