*Academic Bildung in Net-based Higher Education* Trine Fossland,Helle Mathiasen,Mariann Solberg,2015-02-11 The explosive emergence of net based learning in higher education brings with it new possibilities and constraints in teaching and learning environments This edited collection considers how the concept of Academic Bildung a term suggesting a personal educational process beyond actual educational learning can be applied to net based higher education The book is drawing on Scandinavian research to address the topic from both a theoretical and practical standpoint Chapters explore the facilitation of online courses and argue how and why universities should involve dimensions of Academic Bildung on both a strategic and technological pedagogical content level The book is structured in three parts Part I frames the current state of net based learning and introduces Bildung as a concept Part II contains a set of four case studies in Norway Sweden and Denmark also including a fifth study that looks at Scandinavian approaches to teaching and learning in comparison with data from the USA the UK Australia and Canada Part III provides a synthesis of theories and

cases to examine whether a Scandinavian orientation can be discerned Contributions suggest that in order to address one of the fundamental functions of higher education the ability to produce new knowledge the Academic Bildung of the students has to be in focus Grounded in theoretical and empirical discussion this book will appeal to researchers and academics in the field of higher education as well as personnel who work with teaching and learning with technology and academics interested in the question of Academic Bildung     Weekly Newspaper Writing and Editing Thomas Frederick Barnhart,1949
