The Welcome Desk Mark J Molinoff, 2025-08-12 At Wake Med North Hospital in Raleigh

North Carolina two unlikely volunteers sit side by side behind the Welcome Desk Earl a retired corporate charmer with polished shoes and a thousand watt smile and Jacob a former New York City homicide detective whose quiet strength speaks louder than words Though their paths to faith were different both men are deeply devoted to the Lord and firmly rooted in Scripture Anchored in the powerful and poetic lines of Psalm 139 each chapter of The Welcome Desk pairs a verse from King David's psalm with a day in the life of Earl and Jacob Through comforting words unexpected laughter and Spirit led conversations these men offer something far beyond visitor badges and directions they offer hope As they guide patients families and hospital staff through the sterile hallways of uncertainty they bring warmth wisdom and the occasional divine appointment Along the way we learn their backstories how they lived how they loved how they suffered and how God led them every step of the way Because sometimes the most important healing doesn't happen in an operating room Sometimes it begins with a smile and a kind word at the Welcome Desk

Managing Emerging Risk Kevin D. Burton,2017-11-15 From Main Street to Mumbai Managing Emerging Risk The Capstone of Preparedness considers the new global drivers behind threats and hazards facing all those tasked with protecting the public and private sector The text delves into the global mindset of public and private sector emergency managers and presents a new risk landscape vastly different from the one existing ten years ago The book begins by presenting a series of fictitious scenarios each resulting in mass destruction and fatalities These are each followed by actual news stories that support the scenarios and demonstrate that the proposed events seemingly unthinkable have the potential to occur Next the author identifies two drivers in the practice of emergency management and general preparedness today that constitute our view of the future and the new face of risk The first is the Disaster Halo Effectthe idea that modern threats exhibit more than one event The second is the worldview of our nation as a Market State focused on the trading of goods services and ideas among

the nation states The book also reviews the history of preparedness and discusses its relationship with large scale threats establishing that hindsight bias has hurt our ability to plan and respond to the unexpected The chapters that follow explore what is needed to better cultivate design develop and operate emerging management and preparedness thinking in the current environment Each chapter begins with key terms and objectives and ends with thought provoking questions Introducing a new paradigm of thought that takes into account the chief influencers of global threats the book arms emergency and business operations managers with the ammo needed to successfully confront emerging threats in the 21st century
