**China's Regions in an Era of Globalization** Tim Summers, 2018-06-19  
The rise of China has been shaped and driven by its engagement with the global economy during a period of intensified globalization yet China is a continent sized economy and society with substantial diversity across its different regions. This means that its engagement with the global economy cannot just be understood at the national level but requires analysis of the differences in participation in the global economy across China's regions. This book responds to this challenge by looking at the development of China's regions in this era of globalization. It traces the evolution of regional policy in China and its implications in a global context. Detailed chapters examine the global trajectory of what is now becoming known as the Greater Bay Area in southern China, the globalization of the inland mega city of Chongqing and the role of China's regions in the globally focused belt and road initiative launched by the Chinese government in late 2013. The book will be of interest to practitioners and scholars engaging with contemporary China's political economy and international relations.

It has the potential to be extended to cases of sexual violence and a number of small scale programmes are already underway across the world. Restorative Responses to Sexual Violence examines this innovative justice paradigm in more depth in the particular context of sexual trauma and violence in order to establish the empirical realities of restorative justice approaches in cases of sexual violence and considers how such approaches could be

developed adequately in the future This book is divided into two parts each representing a key area of research and practice theoretical and conceptual frameworks and justice and therapeutic perspectives This international collection brings together leading expert scholars and practitioners to offer both theoretical and practical perspectives on restorative justice and sexual violence This book will be of interest to researchers in the field of law criminology psychology social science social work and psychotherapy as well as practitioners in the fields of criminal justice restorative justice and sex offender and victim trauma therapies
