**\*\* Please answer on a separate sheet of paper \*\***

*Differences between novels and films:*

Novel	Film
Linguistic = words	Visual = images
Conceptual	Perceptual
Raw material = written words	Raw material = recorded images and sounds
One author	Collaborative

### I. Vocabulary

- Flashback:** alteration in story order in which the plot moves back in time to show events that have taken place earlier than those already shown.
- Close-up:** a framing in which the scale of the object shown is relatively large. Most commonly, a person's head is seen from the neck up or an object fills most of the screen.
- Depth of Field:** the area or field between the closest and farthest planes captured by the camera in which everything appears in sharp focus.
- Establishing Shot:** a shot that shows the relationship among important figures, objects, characters, and setting at a distance. The film then cuts to more detailed shots that bring the audience closer to the characters.
- Point of View (POV):** a shot taken from the position of a character's eyes. It shows the viewer what things look like from the character's position.
- Wide Angle:** the use of a wide-angle lens to create a shot that captures a wide range of elements.
- Crosscutting:** editing that alternates shots of two or more lines of action occurring in different places. It is often used during dramatic sequences to increase tension.

### II. Cast and Crew

Unlike the novel, Of Mice and Men, which was essentially created by one man (John Steinbeck), the film version is a collaborative effort. Each person on screen and behind the scenes influences the overall film.

- Who wrote the screenplay?
- Who is the director?
- Who plays George?
- Do you think this was good casting? What is different about the looks and behavior of the actor from what you had imagined?
- Who plays Lennie?
- Does the actor portray Lennie differently from what you had imagined while reading? Does the actor bring anything new to the character that emphasizes a characteristic?
