On Rowan Williams Matheson Russell,2009-01-01 Theologian poet public intellectual and clergyman Rowan Williams is one of the leading lights of contemporary British theology He has published over twenty books and one hundred scholarly essays in a distinguished career as an academic theologian that culminated in his appointment as Lady Margaret Professor of Divinity at Oxford University Williams left this post to serve in the Anglican Church first as Bishop of Monmouth then Archbishop of Wales before finally being enthroned in 2003 as the 104th Archbishop of Canterbury In this collection of essays a talented younger generation of Australian theologians critically analyzes the themes that bind together Williams s theology These sympathetic yet probing essays traverse the full breadth of Williams s work from his studies on Arius the Desert Fathers Hegel and Trinitarian theology to his more pastoral writings on spirituality sexuality politics and the Anglican Church **The Book Review Digest** ,2006 **The Catholic Periodical and Literature Index** ,2004 The Journal of Medieval and Early Modern Studies ,2004 **The Catholic Library World**

,2004 *The Publishers Weekly* ,2004 *Donne's God* P.M. Oliver,2018-05-15 His contemporaries recognised John Donne 1572 1631 as a completely new kind of poet He was wrote one enthusiast Copernicus in Poetrie But in the winter of 1614 15 Donne abandoned part time versification for full time priestly ministry quickly becoming one of the most popular preachers of his time While his verse has never been short of modern admirers his sermons have recently begun to receive their full share of serious attention Yet there exists almost no theologically informed criticism to assist readers with navigating let alone appreciating the intricacies of Donne s religious thinking The need for such criticism is especially urgent since many readers approach his writing today with little previous knowledge of Christian doctrine or history This book supplies that deficiency Starting from the assumption that theology is inevitably the product of the human imagination a perception that is traced back to major early Christian writers and something that Donne implicitly acknowledged it probes the complex amalgam that constituted his ever shifting vision of the deity It examines his theological choices and their impact on his preaching analysing the latter with reference to its sometimes strained relationship with Christian orthodoxy and the implications of this for any attempt to determine how far Donne may legitimately be viewed as a mouthpiece for the Jacobean and Caroline Church of England The book argues that the unconventionality that characterises his verse is also on display in his sermons As a result it presents Donne as a far more creative and risk taking religious thinker than has previously been recognised especially by those determined to see him as a paragon of conventional Christian orthodoxy
