The Global Imaginary of International School Communities Heather A. Meyer, 2021-05-07 This book offers a new perspective into the world of international schools and the lucrative industry that accompanies it. It examines how the notion of the global becomes a successful commodity, an important social imaginary and a valuable identity marker for these communities of privileged migrants and host country nationals. The author invites the reader on an ethnographic journey through an international school community located in Germany, illuminating the central features that define and maintain the sector, including its emphasis on globality, engagement with the concept of Third Culture Kid and its wider contentious relationship with the local. While much attention is placed on global citizenship, international school communities experience degrees of isolation, limited mobility, over protection and dependency on the school community, impacting their everyday lives inside and outside the school. This book is guided by larger questions pertaining to the education and mobilities of migrant youths and young adults, as well as the notion of what it means to be global today. *Handbook Of The Management Of Creativity And Innovation: Theory And Practice* Lisa Min Tang, Christian Werner, 2017-03-20 Handbook of the Management of Creativity and Innovation: Theory and Practice is a collection of theories and practices for the effective management of creativity and innovation contributed by a group of European experts from the fields of psychology, education, business, engineering and law.
