David L. Lewis,2014-06-03 When Speaker Newt Gingrich greeted Dr David Lewis in his office overlooking the National Mall he looked at Dr Lewis and said You know you're going to be fired for this don't you I know Dr Lewis replied I just hope to stay out of prison Gingrich had just read Dr Lewis's commentary in *Nature* titled *EPA Science Casualty of Election Politics* Three years later and thirty years after Dr Lewis began working at EPA he was back in Washington to receive a Science Achievement Award from Administrator Carol Browner for his second article in *Nature* By then EPA had transferred Dr Lewis to the University of Georgia to await termination the Agency's only scientist to ever be lead author on papers published in *Nature* and *Lancet* The government hires scientists to support its policies industry hires them to support its business and universities hire them to bring in grants that are handed out to support government policies and industry practices

Organizations dealing with scientific integrity are designed only to weed out those who commit fraud behind the backs of the institutions where they work The greatest threat of all is the purposeful corruption of the scientific enterprise by the institutions themselves The science they create is often only an illusion designed to deceive and the scientists they destroy to protect that illusion are often our best This book is about both beginning with Dr Lewis's experience and ending with the story of Dr Andrew Wakefield      *Popular Science* ,1973-02 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better      **Sale** Anderson Galleries, Inc,1920
