## **Über Act Practice Compare:**

**Practices of Comparing** Angelika Epple, Walter Erhart, Johannes Grave, 2020-06-22 Practices of comparing shape how we perceive, organize and change the world. Supposedly innocent practices of comparing play a decisive role in forming categories, boundaries and hierarchies but they can also give an impetus to question and change such structures. Like almost no other human practice, comparing pervades all social, political, economic and cultural spheres. This volume outlines the program of a new research agenda that places comparative practices at the center of an interdisciplinary exploration. Its contributions combine case studies with overarching systematic considerations. They show what insights can be gained and which further questions arise when one makes a seemingly trivial practice comparing the subject of in-depth research.

### **Succession Upon Death: A Comparison of European and Turkish Private International Law**

Biset Sena Günes, 2023-09-04 The European Succession Regulation which harmonized private international and procedural law rules of Member States in the field of succession has been examined by scholars in almost every detail. It has however not attracted the same degree of attention from a third state perspective. The aim of this book is to offer a comparative analysis of the Regulation's regime from a Turkish perspective. Turkey is indeed an important third state for cross border succession cases for the EU having a great number of nationals within the European Union and being one of the third countries which have bilateral treaties on succession with the Member States which are still applicable according to Article 75 of the Regulation. Biset Sena Gunes addresses the differences between the provisions of the Regulation, the Turkish PILA and the Turkish German Treaty of 1929, the most practically relevant one of the treaties with third states and indicates the interplay between the three legal texts.

**The Max Planck Handbooks in European Public Law** Armin von Bogdandy, Huber Peter M., Christoph Grabenwarter, 2023-04-13 The Max Planck Handbooks in European Public Law series describes and analyzes the public law of the European legal space, an area that encompasses not only the law of the European Union but also the European Convention on Human Rights and importantly the domestic public laws of European states. Recognizing that the ongoing vertical and horizontal processes of European integration render legal comparison the task of our time for both scholars and practitioners, the project aims to foster a better understanding of the

specific European legal pluralism and ultimately to contribute to the legitimacy and efficiency of European public law. The first volume of the series began this endeavour with an appraisal of the evolution of the state and its administration offering both cross cutting contributions and specific country reports. The third volume the second in chronological terms continues this approach with an in depth appraisal of constitutional adjudication in various and diverse European countries. Fourteen country reports and two cross cutting contributions investigate the antecedents foundations organization procedure and specific approach to constitutional issues throughout the Continent. The fourth volume now compares European constitutional jurisdiction in the European legal space. It examines the structures of the organization the appointment of judges the procedures and the methods of argumentation and interpretation their impact on state and society their legitimacy as well as their role in the division of powers and thus completes the picture following the country reports in Volume III. This comparative perspective is supplemented by an examination that illustrates the relationship with the ECJ the ECtHR and the Venice Commission as well as their constitutional function. Finally Constitutional Adjudication Common Themes and Challenges is devoted to the challenges constitutional jurisdiction in the European judicial area is currently facing. The historical political and theoretical foundations as well as the basic dogmatic features of constitutional jurisdiction are presented in such a way that the discussion about its role and further development in this legal space is sustainably stimulated. *Der Einfluss deutscher Emigranten auf die Rechtsentwicklung in den USA und in Deutschland* Marcus Lutter, Ernst Stiefel, Michael H.
