Medical and Health Information Directory, Vol. 1 Gale,Gale Group,2004-09 **Medical and Health Information Directory** Amanda Quick,Gale Group,2002-12 *Optician Essentials and Advanced Exam Practice Test* Erich W. Mack,2013-12-08 Success as a professional optician starts with this text This guide is an invaluable source for learning more advanced ophthalmic optics basic business principals troubleshooting patient problems and solving some of the more tricky optics quandaries This text reviews the more advanced topics seen on ABO and ABO Advanced exams Also included are overviews on new topics such as expanded infection types additional optics equations and vision therapy For those planning on taking the advanced level ABO exam there is included a 198 question practice test and answer key The practice questions are based on the most recent exam topics Excerpts It is difficult perhaps impossible to pinpoint when the first corrective lens was created The history of optics and spectacles dates back very far in time before a written history and involves a variety of characters The earliest lens called the Nimrud lens could date back as far as 7000 B C Current theory states that ancient Mesopotamians called Assyrians manufactured the Nimrud lens which is a magnifying lens to help them carve intricate

patterns On the other hand the Nimrud lens could be what is called a burning glass and used to start fires and not a occupational aid lens at all Either way the rock crystal Nimrud lens has a 3x magnification power and is the oldest lens of any type that we know of At the time of this writing it is being housed and displayed at the British Royal museum and worth seeing for yourself Another possible early lens can be traced through written account to Nero of ancient Rome Its accepted as fact that he was quite myopic but a tantalizing theory also states he used a polished emerald to peer through while watching gladiatorial games Could this be the first myopic corrective lens As an optician it is your job to be an expert in this exciting field and you also have the honor of being part if its history With the evolution of mass produced frames inexpensive advanced lenses and an online marketplace it more important than ever to stay abreast of the future of ophthalmics and understand its past For opticianry to continue to thrive it is vital to position yourself as the definitive professional This will allow you to separate yourself from the online marketplace and embrace the opportunity to profitably offer products tailored to your patrons needs
