OneNote

Access your notes anywhere

Without good user reviews, photos, and details of why they're popular can it be trusted? Keeps your contacts available to you by signing in with your free Microsoft account where you first start OneNote on your PC. There's even a free OneNote app for all of your portable devices, so you can keep them on your phone.

Don't worry about saving

OneNote automatically saves all of your changes as you work — so you never have to. Even when you close the app or your PC goes to sleep, your notes are always saved, so you can continue right where you left off. To see when OneNote last synced your changes, select **File > Info > Version & Sync Status**.

Never run out of paper

OneNote doesn't have any of the limitations of a traditional paper notebook. When you run out of room, you can just make more.

To create a new page in the current section, select the **[+]** button at the top of the page tabs column. You can also right-click any page tab and then select **New Page**, or press **Ctrl+N** on your keyboard.

To create a new section in the current notebook, select the small '+' with the plus sign (+) to the right of the section table bar, or right-click any section table and then select **New Section**.
