**World Famous Artists** Archana Srinivasan, 2004-09 Short life sketches of 14 artists [The Top 5 Greatest Artists](#) Charles River Editors, 2017-11-09 Includes pictures of important people and places as well as the artists' most famous works Discusses the relationships between the artists Includes a Bibliography on each artist for further reading It would be hard to determine which field Leonardo had the greatest influence in His Mona Lisa and The Last Supper are among the most famous paintings of all time standing up against even Michelangelo's work But even if he was not the age's greatest artist Leonardo may have conducted his most influential work was done in other fields His emphasis on the importance of Nature would influence Enlightened philosophers centuries later and he sketched speculative designs for gadgets like helicopters that would take another 4 centuries to create It's possible that Michelangelo is the most famous artist in history but it's also possible that he's an underrated artist The vast influence of his career is reflected by the fact that he is not only known for his own art but has also come to embody an entire epoch of Western art Along with Leonardo da Vinci there are no other artists who so fully capture the spirit of scientific and artistic discovery that characterized art during the late 15th and early 16th centuries Moreover Michelangelo's career is distinguished from that of his peers through his seamless ability to work within different art forms receiving acclaim regardless of the medium After first rising to fame as a sculptor he also painted and served as an architect and since his death Michelangelo has also become decorated for his prolific output as a poet The diversity and high standard of his work no matter the medium make it difficult to even arrive at a most famous work Raffaello Sanzio da Urbino known across the world simply by the name Raphael stands as one of the main pillars of the High Renaissance an iconic example of the balance between spirituality and Humanistic inquiry that characterized the time period Although he lived just 37 years his career produced an amazingly rich output and he completed more works than many artists do over careers spanning twice the length At the same time Raphael's art combined central tropes associated with the Renaissance while remaining remarkably original Vincent van Gogh is undoubtedly one of the most famous artists of all time and though the critical establishment may not consider him the greatest artist who ever lived there may be no artist with whom the public has a greater familiarity Unfortunately a great deal of that familiarity comes from the circumstances leading up to his death and the manner in which they have been linked to his painting career In 1882 Vincent would hauntingly and somewhat prophetically write to his brother Theo What am I in the eyes of most people a nonentity an eccentric or an unpleasant

person somebody who has no position in society and will never have in short the lowest of the low All right then even if that were absolutely true then I should one day like to show by my work what such an eccentric such a nobody has in his heart In their biography of Pablo Picasso Hans Ludwig and Chris Jaffe note that for him art was always adventure To find is the thing Indeed there is perhaps no artist who produced more art than Picasso whose enormous oeuvre which spanned most of his 91 year life contained a countless number of paintings and drawings Picasso also worked in other mediums as well notably sculpture and lithography and his constant experimentation with form makes him a useful case study through which to chart the growth of Modernism as an artistic movement and many of the artistic trends that would dominate the 20th century
