Noguchi And His Patrons:

Noguchi and His Patrons Isabel Rosanoff Plesset, 1980 A comprehensive biography of the Japanese microbiologist Hideyo Noguchi The story of his triumph and eclipse is both a work of scholarship and a psychological study of a man who in his own person embodied many of the ironies and conflicts of 20th century science and society **Isamu Noguchi S Modernism** Amy Lyford, 2013-06-08 In a study that combines archival research a firm grounding in the historical context biographical analysis and sustained attention to specific works of art Amy Lyford provides an account of Isamu Noguchi s work between 1930 and 1950 and situates him among other artists who found it necessary to negotiate the issues of race and national identity In particular Lyford explores Noguchi s sense of his art as a form of social activism and a means of struggling against stereotypes of race ethnicity and national identity Ultimately the aesthetics and rhetoric of American modernism in this period both energized Noguchi s artistic production and constrained his public reputation *Life of the Clinician* Michael J. Lepore, 2002 The autobiography of one of America s most important gastroenterologists Michael Lepore 1910 2000 was a pioneer in the field of gastroenterology He was a member of one of the first graduating classes of the University of Rochester Medical School and went on to a distinguished career at Columbia University New York University and St Vincent s Hospital and Medical Center of New York This autobiography tells of his experiences as an Italian American who overcame prejudices to become the personal physician to such notables as Greta Garbo and President Herbert Hoover His story is witty and cleverly written and details the way the medical profession changed from the Great Depression to the late 1990s Michael Lepore was an alumnus of Duke University Medical School and the University of Rochester School of Medicine and was the Director Gastroenterology Section Departments of Medicine and Surgery Emeritus St Vincent s Hospital and Medical Center of New York War Crimes in Japan-Occupied Indonesia J. Kevin Baird, Sangkot Marzuki, 2015-05-15 Shortly after Pearl Harbor the Japanese Imperial Army invaded the Dutch East Indies now known as Indonesia A deceitful campaign promoting Asian brotherhood recruited and coerced young Indonesian men to support the Japanese occupation with the sinister outcome that several million of them were worked to death or summarily killed as expendable slave laborers or romusha as they were called While many romusha disappeared from the record nine hundred were known victims of a brutal and immoral medical experiment perpetuated by an increasingly desperate Imperial Japan In anticipation of a land assault the Japanese needed a means to protect their troops from tetanus and they used these nine hundred men as human guinea pigs to test an insufficiently vetted vaccine Within days all nine hundred suffered the protracted agonizing death of acute tetanus With the Allied forces poised for victory the Japanese needed a scapegoat for this well documented incident if they were to avoid war crimes prosecution They brutally tortured Achmad Mochtar a native Indonesian and renowned scientist along with his colleagues at the Eijkman Institute in Batavia now Jakarta until Mochtar signed a confession to the murders in exchange for the liberty of his fellow scientists The Japanese beheaded Mochtar weeks before the war ended War Crimes in Japan

Occupied Indonesia unravels the deceit of the Japanese Army the reasons for the mass murder of the romusha and Mochtar s heroic role in these tragic events The end result finds justice for Mochtar and reveals the true extent of one of the least recognized war crimes of World War II Human Experimentation and Antivivisection in Turn-of-the-century America Susan Marie Lederer,1987 **Monumenta Nipponica** ,1981 Includes section Reviews **Creating a Tradition of Biomedical Research** Darwin H.
