Computer Buyer's Guide and Handbook, 1998 *Materializing Memory in Art and Popular Culture* Laszlo Muntean, Liedeke Plate, Anneke Smelik, 2016-12-08

Memory matters. It matters because memory brings the past into the present and opens it up to the future. But it also matters literally because memory is mediated materially. Materiality is the stuff of memory. Meaningful objects that we love or hate function not only as *memento mori* but are integral to memory. Drawing on previous scholarship on the interrelation of memory and materiality, this book applies recent theories of new materialism to explore the material dimension of memory in art and popular culture. The book's underlying premise is twofold: on the one hand, memory is performed, mediated, and stored through the material world that surrounds us; on the other hand, inanimate objects and things also have agency on their own, which affects practices of memory as well as forgetting. Chapters 1, 4, and 5 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non-Commercial No Derivatives (CC BY-NC-ND 3.0) license.

Strategic Storytelling Anjali Sharma, 2024-08-15

In today's connection economy, the most successful leaders inspire their people with purpose and meaning. Powerful corporate storytelling can mobilise people around an organisational objective in a way that a focus on market share never will. Be it a digital transformation or a diversity and inclusion initiative, corporate change needs the support of the people in that organisation in order to stick. Yet while all stories can move people to take action, storytelling isn't a one-size-fits-all. The most effective influencers learn to flex their narrative based on the audience's time or their level of expertise. A story that works on the stage doesn't work in the boardroom. A story that works in the boardroom doesn't work in a team meeting. A story that works in a team meeting doesn't work in a one-to-one conversation. A story that works in one-to-one conversation doesn't work in sales. Anjali Sharma introduces leaders and ambitious influencers to the Who, Why, and How of strategic storytelling in business, enabling them to bring about change and drive corporate success by telling exactly the right story in the right way.

Regulation (EU) No 608/2013 Concerning Customs Enforcement Of Intellectual Property Rights Olivier Vrins, 2024-04-17

Derived from the renowned multi-volume International Encyclopaedia of Laws, this monograph provides a survey and analysis of the rules concerning Regulation (EU) No 608/2013 Concerning Customs Enforcement of Intellectual Property Rights. It covers every type of intellectual property right in depth: copyright and neighbouring rights, patents, utility models, trademarks, trade names, industrial designs, plant variety protection, chip protection, trade secrets, and confidential information. Particular attention is paid throughout to recent developments and trends. The analysis approaches each right in terms of its sources in law and in legislation and proceeds to such legal issues as subject matter of protection, conditions of protection, ownership, transfer of rights, licences, scope of exclusive rights, limitations, exemptions, duration of protection, infringement, available remedies, and overlapping with other intellectual property rights.

The book provides a clear overview of intellectual property legislation and policy and at the same time offers practical guidance on which sound preliminary decisions may be based. Lawyers representing parties with interests in Regulation EU No 608/2013 Concerning Customs Enforcement of Intellectual Property Rights will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative intellectual property law. Daily Graphic Yaw Boadu-Ayeboah, 2006-05-12 *The Customer Copernicus* Charlie Dawson, Seán Meehan, 2021-05-16

Some companies are great for customers not only do they care but they change whole markets to work better for the customers they serve. Think of Amazon, easyJet and Sky. They make things easier and improve what really matters. Obviously, surely. They have also enjoyed huge business success growing and making plenty of money. The Customer Copernicus answers the question that follows: if it's obvious and attractive, why is it so rare? And then it answers a second question: because Tesco, O2 and Wells Fargo were like this once. Why, having mastered it, would you ever stop? Because all three did and two ended up in court. The Customer Copernicus explains how to become and how to stay customer-led. Essential reading for leaders and teams who want their organisations to stay competitive by developing a more purposeful and innovative culture.
