## **Normal Binocular Vision Normal Binocular Vision:**

Normal Binocular Vision David Stidwill, Robert Fletcher, 2017-09-25 Binocular vision i.e. where both eyes are used together is a fundamental component of human sight. It also aids hand-eye coordination and the perception of the self within the environment. Clinical anomalies pose a wide range of problems to the sufferer but normal binocular operation must first be understood before the eye specialist can assess and treat dysfunctions. This is a major new textbook for students of optometry, orthoptics and ophthalmology and also of psychology. Chapters span such key topics as binocular summation, fusion, the normal horopter, anatomy of the extraocular muscles, oculomotor control, binocular integration and depth perception. Fully illustrated throughout, the book includes self-assessment exercises at the end of each chapter and sample experiments in binocular vision functioning.

**Binocular Anomalies** John R. Griffin, J. David Grisham, 2002. The comprehensive approach of this authoritative book focuses on vision therapy and addresses surgical and pharmacological treatment of binocular vision problems. Discussion of normal binocular vision lays the foundation for examining poor visual skills, strabismus, amblyopia, various associated conditions and oculomotor disorders. Each chapter contains a detailed outline which acts as an excellent review and provides access to basic information and key topics. Numerous summary tables and figures promote focused learning and provide quick access to information. The enhanced how-to approach provides specific vision training techniques. Explores the management of medical and neurological binocular problems, making this book applicable for primary eye care practitioners as well as specialists in vision therapy. Extensive appendices provide practical supplemental information. 100 questions with answers and detailed chapter outlines act as excellent review guides. A CD-ROM included with the book contains popular training techniques and forms that can be modified to accommodate specific needs for office use and additional training.
