Not Another Sentinel Event:

Contemporary Catholic Health Care Ethics, Second Edition David F. Kelly, Gerard Magill, Henk ten Have, 2013-03-28

Contemporary Catholic Health Care Ethics Second Edition integrates theology methodology and practical application into a detailed and practical examination of the bioethical issues that confront students scholars and practitioners. Noted bioethicists Gerard Magill, Henk ten Have and David F. Kelly contribute diverse backgrounds and experience that inform the richness of new material covered in this second edition. The book is organized into three sections: theology, basic issues underlying Catholic thought, methodology, how Catholic theology approaches moral issues including birth control and applications to current issues. New chapters discuss controversial end of life issues such as forgoing treatment, killing versus allowing patients to die, ways to handle decisions for incompetent patients, advance directives and physician assisted suicide. Unlike anthologies, the coherent text offers a consistent method in order to provide students scholars and practitioners with an understanding of ethical dilemmas as well as concrete examples to assist in the difficult decisions they must make on an everyday basis.
