without one coming across them They are a humorous picture a witty message or a funny video you find on the internet They are in our newsfeed on our message boards or in personal messages from our friends These sources of entertainment seem to be by now an important element of today s web society and there is a huge number of image boards like 9gag com or reddit com which have no other purpose than satisfying our needs for these sources of entertainment Even a growing number of newspapers have started to include this type of content in their online platforms A term that is often used to describe this accumulation of different visual entities is the term memes but this term is vague and ambiguous and it it does not specifically say what kind of phenomena are included in it This bachelor thesis is an attempt to establish these phenomena labelled as memes as valuable objects for linguistic studies It will glance at several linguistic theories and check their relevance for analysing image macros as representatives for memes in general Finally it will analyse image macros by using the frame semantic framework thus integrating the former accomplished insights in one theoretic framework with only a few central terms This will support the thesis that frame semantics is capable of describing the patterns of encyclopaedic knowledge needed in order to understand complex bimodal entities

### **Mesmerization**

Gee Thomson,2008 In the modern Western world hundreds if not thousands of contagious ideas spread by word of mouth or through the media spells or memes make up contemporary culture and affect just about every aspect of our daily life Some of the most powerful of these spells form the core of Mesmerization In this highly visual publication the many facets of each spell are dissected and analysed within a unique graphic formula that exposes and encapsulates its meaning and purpose The most successful of such constructs are the creation of the media the image makers advertising executives newspaper editors creatives designers photographers and film producers who make up the ranks of the creative elite Their dreams of affluence comfort and wellbeing are being emulated the world over More than we know they determine what we believe how we behave and think and control our decisions as to what gets made what gets seen what gets heard But there are cracks in this wonderland Psychological disorders drug dependency obesity gun crime and social addictions are on the rise Worldwide the

gaping disparity between rich and poor nations religious unrest disease and famine resource scarcity and fears over climate change head the agenda The influence and aspirations of our lifestyles are central to these issues How can we make headway in confronting our wider realities when we have an image machine that is totally at loggerheads with the need for restraint By revealing the collective power of these insidious cultural influences Mesmerization is a challenge to the creative industry to those who control the motivational drivers underpinning the global psyche In their hands rests the ability to change and transform future behaviour This publication provides the catalyst Stereotypes in Internet Memes. A Linguistic Analysis I. Magel,2017-02-28 Examination Thesis from the year 2016 in the subject English Language and Literature Studies Linguistics grade 2 0 language English abstract At first glance internet memes seem to be the humorous part of our digital culture Indeed they are But they also reveal stereotypical thinking which I will focus on in my analysis This analysis will investigate thoroughly internet memes from a linguistic viewpoint Starting from Richard Dawkins definition via Susan Blackmore's third replicator theory through to Limor Shifman's critical approach about the state of research concerning memes Internet memes are also examined from a communication oriented view Successful Black Man Successful White Man Ordinary Muslim Man and High Expectation Asian Father serve as a basis for my analysis A combination of Semiotic Analysis and Discourse Analysis is used in order to examine the selected examples Both methods were chosen because Internet memes involve written texts as well as signs or images which contain invisible meaning All results taken together this thesis will show that Internet memes are still interpreted stereotypically in our multicultural present day society The Oxford Companion to the Mind Richard Langton Gregory,2004 The volume serves as a guide to all the mysteries and idiosyncrasies of the human mind Topics such as language memory intelligence the halo effect caffeine attachment theory and much more are covered New Scientist ,2002 Wild Earth ,1996 Mind Shapes Alan R. Kahn,Kris Austen Radcliffe,2005-03-30 In our everyday encounters we are continuously challenged by people who think and respond in ways different from ourselves Each one of us pays attention to different aspects of life interprets experiences differently understands certain issues better than others communicates with differing styles and uses different criteria for judging and believing others Parents of a family with several children are usually amazed by the diverse ways in which the children develop Managers are confounded by the unexpected misunderstandings among themselves and those they manage Educators find it difficult to account for the broad spectrum of students responses to a single course of study And in relationships one is often perplexed at the ways in which common everyday words are sometimes interpreted Those of us who study the ways in which people interact continue to marvel at the differences people bring to thinking and communicating For the past 20 years Dr Kahn has led a team of scientists in in depth studies of the different brain processes leading to the different types of information processing in people This research has developed tools which can measure how people reveal the structure of their thought processes in the flow of their communications This has enabled the team to develop a model that organizes cognitive structures according

to a new paradigm one that explicitly shows the connections between cognition input and output This paradigm identifies sixteen different ways in which people process information and describes the underlying brain mechanisms which are responsible Further Mind Shapes presents how these differences developed through the stages of human evolution and the way they are expressed in the steps of modern child development Theory and practicum come together as Mind Shapes links physiology of information processing to behavior and shows how different people communicate learn and make decisions This model has been successfully applied to education management consumer communications and psychological counseling dimensions of life where understanding human behavior and motivation are critical to success Mind Shapes provides its readers with useful tools which were developed as a result of this experience *Sotheran's Price Current of Literature* Henry Sotheran Ltd,1881 *Virus!* Allan Lundell,1989 The story of how destructive computer programs can ruin the world of information and what can and cannot be done about it **On Westernism** David Hurst,2003 **Japan Echo** ,1983

**Genes Vs. Memes** Walter A. Koch,1986 **AI Magazine** ,1986 **The Critical Reader, Thinker, and Writer** W. Ross Winterowd,Geoffrey R. Winterowd,1997 This reader rhetoric offers students a variety of clear and powerful approaches to critical reading thinking and writing including the research paper The text provides students with more than sixty readings to explore the connections between critical reading and writing *The Year's Best Science Fiction* ,2002
