SAP Security Configuration and Deployment Joey Hirao, 2008-11-18

Throughout the world high profile large organizations aerospace and defense automotive banking chemicals financial service providers healthcare high tech insurance oil and gas pharmaceuticals retail telecommunications and utilities and governments are using SAP software to process their most mission critical highly sensitive data. With more than 100 000 installations SAP is the world's largest enterprise software company and the world's third largest independent software supplier overall. Despite this widespread use there have been very few books written on SAP implementation and security despite a great deal of interest. There are 220 000 members in an on line SAP community seeking information ideas and tools on the IT Toolbox Website alone. Managing SAP user authentication and authorizations is becoming more complex than ever as there are more and more SAP products involved that have very different access issues. It's a complex area that requires focused expertise. This book is designed for these network and systems administrator who deal with the complexity of having to make judgmental decisions regarding enormously complicated and technical data in the SAP landscape as well as pay attention to new compliance rules and security regulations. Most SAP users experience significant challenges when trying to manage and mitigate the risks in existing or new security solutions and usually end up facing repetitive expensive re work and perpetuated compliance challenges. This book is designed to help them properly and efficiently manage these challenges on an ongoing basis. It aims to remove the Black Box mystique that surrounds SAP security. The most comprehensive coverage of the essentials of SAP security currently available risk and control management, identity and access management, data protection and privacy, corporate governance, legal and regulatory compliance. This book contains information about SAP security that is not available anywhere else to help the reader avoid the gotchas that may leave them vulnerable during times of upgrade or other system changes. Companion Web site provides custom SAP scripts which readers can download to install, configure and troubleshoot SAP.

Oracle Application Server 10g Erin Mulder, Rob Harrop, Jan Machacek, Michael Wessler, 2013-11-09

Oracle Application Server 10g J2EE Deployment and Administration focuses on the latest version of Oracle's fully J2EE certified application server previously called Oracle9iAS. Oracle Corporation is aggressively attacking this market with a new lost cost version of the server as well as a program to move BEA customers onto Oracle free of charge. Adoption interest is growing rapidly amidst favorable reports regarding performance and reliability. Deploying and configuring J2EE applications are some of the trickiest processes in J2EE development and they unfortunately receive scant attention in general J2EE texts. This book is a focused no frills guide to getting J2EE applications up and running on 10g. It covers Oracle's J2EE container OC4J available free of charge for development purposes in full detail. It moves on to explain how to best configure and use the various enterprise level features that come with the commercial editions. This is the book for anyone wanting to stay ahead in the world of
