Western to post Soviet university settings **Human Services as Complex Organizations** Yeheskel Hasenfeld, Andrew Delano Abbott, 1992-04 On human services *Institutional Patterns and Organizations* Lynne G. Zucker, 1988 *Power and Politics in Organizations* Cynthia Hardy, 1995 This is a collection of articles exploring the issue of power in relation to organizations It asserts that any attempt to understand the large literature on power must extend beyond the confines of organization and management theory The argument underlying the volume is that broad exploration is essential because management studies of power have been for the most part severely constrained tending to view power from a functionalist perspective In so doing issues of how power becomes embedded in existing organizational structures cultures practices rules and regulations have been ignored **The Institutional Construction of Organizations** W. Richard Scott, 1995-08-08 Institutional theory is on the rise During the past three decades the field of organization studies has witnessed a succession of theoretical perspectives including contingency theory resource dependency and population ecology that focus attention on one or another aspect of organizations Only institutional theory highlights the importance of the wider social and cultural environment as the ground in which organizations are rooted The original work in *The Institutional Construction of Organizations* sheds new light on the study of organizations The editors bring together work from two different research traditions the United States and Europe The collection also layers in several important perspectives of institutional theory including empirical observations longitudinal analyses market based organizational forms and attention to the concepts of agency and strategy The result is a finely textured fully developed work for scholars and advanced students of organizational theory and behavior **The Academy of Management Review** Academy of Management, 1996 **The New Institutionalism in Organizational Analysis** Walter W. Powell, Paul J. DiMaggio, 2012-09-21 Long a fruitful area of scrutiny for students of organizations the study of institutions is undergoing a renaissance in contemporary social science This volume offers for the first time both often cited foundation works and the latest writings of scholars associated with the institutional approach to organization analysis In their introduction the editors discuss points of convergence and disagreement with institutionally oriented research in economics and political science and locate the institutional approach in relation to major developments in contemporary sociological theory Several chapters consolidate the theoretical advances of the past decade identify and clarify the paradigm s key ambiguities and push the theoretical agenda in novel ways by developing sophisticated arguments about the linkage between institutional patterns and forms of social structure The empirical studies that follow involving such diverse topics as mental health clinics art museums large corporations civil service systems and national politics illustrate the explanatory power of institutional theory in the analysis of organizational change Required reading for anyone interested in the sociology of organizations the volume should appeal to scholars concerned with culture political institutions and social change **Managing the Incompetent Teacher** Edwin M. Bridges, Barry Groves, 1984 An eight step organizational approach to the problem of identifying remediating and if necessary dismissing incompetent

teachers is described Addressed to school superintendents the eight steps are as follows 1 establish excellence in teaching as a high priority for the district 2 adopt and publish reasonable criteria for evaluating teachers 3 adopt sound procedures for determining whether teachers satisfy these criteria and apply these procedures uniformly to teachers in the district 4 provide unsatisfactory teachers with remediation assistance and a reasonable time to improve 5 establish and implement procedures for ensuring that appraisers have the requisite competencies 6 provide appraisers with the resources needed to carry out their responsibilities 7 hold appraisers accountable for evaluating and dealing with incompetent teachers and 8 provide incompetent teachers with a fair hearing prior to making the dismissal decision The District Evaluation Practices Inventory included is a guide for districts that wish to implement the approach A seven page bibliography completes the monograph
