Scientific Evidence of the Existence of the Soul Benito F. Reyes,1970 For millions of people throughout the world in both the East and the West the existence of the soul is an accepted fact and this view is a basic tenet in most of the great religions Yet there are millions of others who do not accept the idea of a soul and who have a purely mechanistic view of man as a product of evolution The distinguished author of this work has built up his case for the existence of the soul by drawing on many sources including the evidence of such phenomena as memory sleep dreams hypnotism extrasensory perception and death He links his thesis with philosophical concepts of both East and West The work is well documented This is a challenging book and it will provide absorbing reading for those who seek an answer to the meaning of man's existence The author Dr Benito F Reyes is the first President of the University of the City of Manila Pamantasan ng Lungsod ng Maynila in the Philippines Prior to his inauguration in 1968 he was for twenty one years a professor at the Far Eastern University in Manila In 1951-52 he taught at Boston University as a Fulbright Smith Mundt professor and in 1965 he was a Fulbright Hays philosophy professor at the State University of New York He lectured at Harvard Brown and other American universities He has published a number of works on philosophy psychology and the quest for meaning front flap **The British Library**
