**Duetting and Turn-Taking Patterns of Singing Mammals: From Genes to Vocal Plasticity, and Beyond** Patrice Adret, Dena Jane Clink, Charles T. Snowdon, Sofya Dolotovskaya, 2023-10-23 Mammalian vocal duets and turn taking exchanges long coordinated acoustic signals exchanged between two individuals are primarily found in family living pair bonded mammals with a socially monogamous lifestyle some rodents some lemurs tarsiers titi monkeys a Mentawai langur gibbons and siamangs Duetting and turn taking patterns combine visual chemical tactile and auditory cues to produce some of the most exuberant displays in the realm of animal communication How and why such phenotypes evolved independently across main lineages are fundamental questions at the core of the nature nurture debate Duetting styles ranging from antiphonal non overlapping to simultaneous overlapping emissions have now been documented in various taxa some of which are quite reminiscent of turn taking rules in human conversation Nonetheless much remains to be learned about this complex motor skill and at all four levels of analysis namely 1 developmental processes 2 causal mechanisms 3 functional properties and 4 evolutionary history Given the strong link between this form of coordinated singing and pair bonding gaining a deeper understanding of this kind of cooperative behavior will likely shed more light on the deep evolutionary roots of human culture language and music    **The American Recorder** ,1963    The Recorder Richard W. **Vivaldi's Music for Flute and Recorder** Michael Talbot, 2017-07-05 Federico Maria Sardelli writes from the perspective of a professional baroque flautist and recorder player as well as from that of an experienced and committed scholar in order to shed light on the bewildering array of sizes and tunings of the recorder and transverse flute families as they relate to Antonio Vivaldi's compositions Sardelli draws copiously on primary documents to analyse and place in context the capable and surprisingly progressive instrumental technique displayed in Vivaldi's music The book includes a discussion of the much disputed chronology of Vivaldi's works drawing on both internal and external evidence Each known piece by him in which the flute or the recorder appears is evaluated fully from historical biographical technical and aesthetic standpoints This book is designed to appeal not only to Vivaldi scholars and lovers of the composer's music but also to players of the two instruments students of organology and those with an interest in late baroque music in general Vivaldi is a composer who constantly springs surprises as even today new pieces are discovered or old ones reinterpreted Much has happened since Sardelli's book was first published in Italian and this new English version takes full account of all these new discoveries and developments The reader will be left with a much fuller picture of the composer and his times and the knowledge and insights gained from minutely examining his music for these two wind instruments will be found to have a wider relevance for his work as a whole Generous music examples and illustrations bring the book's arguments to life *The British Catalogue of Music*, 1988 *The Ladies' Home Journal* Louisa Knapp, Edward William Bok, 1895 **Woodwind World-brass & Percussion**, 1978 *The Law Times*, 1886 *Bulletin Dolmetsch Foundation*, Haslemere, England, 1979 *Journal of the Lute Society of America* Lute Society of America, 1983
