## **Our Spiritual Brain Integrating Brain Research And Faith Development:**

**Our Spiritual Brain** Barbara Bruce, 2002 Brain research is about making discoveries It is about learning how this most amazing organism works and how it influences every aspect of your life As religious educators you need to know how the brain functions and how to translate that information into better more usable lessons to help students continue with depth and purpose on their journey of faith The first section of this book is a brief background of the brain research that is fascinating so many people in so many fields today The second section is about learning particularly brain based learning The third section is divided into twelve segments Each segment is a practical application to Christian education based on the findings in brain research The fourth section will help you to take your learning about the brain into new areas of discovery

**Teaching the Bible in the Church** John Bracke, Karen Tye, 2003-01-01 This interdisciplinary conversation combines educational theory with Bible scholarship to help teachers of the Bible move beyond conveying information to revealing the transformative power of the scripture Enduring Connections Janice A Haywood, 2007-06-01 Enduring Connections gives churches and ministers significant guidelines for establishing a quality childhood ministry with preschoolers and grade schoolers Enduring Connections is especially helpful to ministers and directors of childhood ministry that are called from the laity to staff positions By focusing on building a childhood ministry that intentionally connects children to God and the community of faith through paths that are driven by relationship rather than programs Janice Haywood has produced a resource that will help churches of any size design their own unique ministry for children A TCP Leadership Series title

**Triangular Teaching** Barbara Bruce, 2010-10-01 Barbara Bruce wrote Triangular Teaching to help teachers and leaders to engage their adult students with scripture so that it becomes life changing This practical hands on book trains Christian education leaders and teachers in the methods of triangular teaching an integrated approach involving multiple intelligence theory brain research and creative and critical thinking It includes a section explaining triangular teaching methods and Bible lessons that illustrate the methods The book includes helpful triangular teaching tips for the activities described in the Bible lessons An appendix includes worksheets that a leader or teacher can photocopy for use in a group Barbara Bruce has created a delightful resource for those who want to teach the Bible effectively and engagingly to contemporary adults Not only does the book give you pre planned lessons but it explains the theories behind each teaching decision This combination of theory and practice will quickly teach teachers to teach more effectively Dr Margaret Ann Crain Associate Professor of Christian Education Garrett Evangelical Theological Seminary Triangular Teaching is an excellent tool for teaching church educators how to be more proficient in facilitating learning It is a trailblazing resource that weaves three concepts with great clarity and sharing the whys is quite helpful in enabling teachers to develop the skills as second nature Dr Mary A Love Editor Church School Literature AME Zion Church Adjunct Professor Christian Education Hood Theological Seminary Barbara Bruce has done it again Not only does she model for us how to teach using multiple intelligences but this book is a

wonderful set of experiences Go ahead and begin to teach Dr Jack Seymour Professor of Religious Education Editor Religious Education Garrett Evangelical Theological Seminary Barbara Bruce is a respected leader in Christian Education She offers workshops around the country in the areas of creativity multiple intelligences and brain research and how to use these areas of research in Christian Education and faith formation She has published several books including *Seven Ways of Teaching the Bible to Adults Teaching and Learning With Adults Mental Aerobics and Our Spiritual Brain* **Eyes of the Heart** Russell Haitch, 2021-03-16 Growing up in a world shaped by science and technology young people may easily lose sight of God Or as this book shows their eyes of the heart can become opened like never before With wit and insight Russell Haitch offers a model for unifying faith and science that does not compromise either good science or Christian convictions In *Eyes of the Heart Seeing God in an Age of Science* Haitch puts this model to the acid test by showing how it resolves long standing and still heated issues of creation and evolution Compelling stories and clear explanations make this book appealing to a wide audience including parents youth workers and young people themselves The ideas are deep Haitch covers a lot of ground from Einstein and Hawking to Augustine and Hildegard of Bingen But the book's arguments are easy to follow and its bite size chapters are enjoyable to read **African Contextual Realities** Rodney L. Reed, 2018-08-14 Everyone who has eyes to see acknowledges the growing importance of the African church to the future of global Christianity But what does it mean for the church to take root in Africa How should the message of the gospel and the practice of Christianity be contextualized for Africa *African Contextual Realities* addresses many of the questions surrounding contextualization from a practical point of view and is the fruit of the 6th Annual Conference of the Africa Society of Evangelical Theology held in Nairobi in 2016 The book explores such questions as In what ways should the mission of God be universally recognizable in every cultural context In our efforts to contextualize how do we avoid compromising the very gospel we are to proclaim How can the African church wean itself away from dependency on the Western church How does Christianity speak into some of the cultural and social issues arising out of contemporary African settings issues like widow cleansing Christian Muslim relations and peace building All those who are interested to learn more about the contextualization of African Christianity will find this volume to be an important resource **Christian Education in the Small Membership Church** Dr. Karen B. Tye, 2010-09-01 Christian Education is part of the vital ministry of all churches but especially of small membership churches In a culture that places great value on numbers small membership churches often mistakenly see themselves at a disadvantage Small membership churches can create wonderful opportunities to form and disciple faithful followers of Jesus Christ In offering viable Christian Education the role of the pastor is critical This book invites pastors to lead their small membership churches to develop an imaginative and holistic vision of Christian Education Read the Introduction **American Book Publishing Record**, 2002 **Religious and Theological Abstracts**, 2003 *Counseling and Spirituality* Joshua Mark Gold, 2010 Innovative and reflective *Counseling and Spirituality* helps readers integrate spiritual and clinical perspectives of counseling in order to

successfully support clients religious or spiritual journeys by utilizing appropriate knowledge and interventions With cultural concerns such as religion and spirituality growing in importance and interest in the helping professions this book serves to define varieties of spiritual beliefs assess spiritual wellness and apply theory and practice based approaches to individualized spiritual counseling situations Author Joshua Gold helps readers contemplate how they see religion and spirituality in their own lives and appraise how their own spirituality sways who they are as clinicians and what they do in the provision of mental health services for their clients What reviewers have to say about Counseling and Spirituality This text is an impressive effort at integrating a complex and largely ignored subject It strongly encourages the counseling field to take up the challenge of accepting what the majority of clients find important spirituality and religion and growing in our understanding knowledge and appreciation of its place in the counseling process Randall R Lyle St Mary's University The use of case examples self understanding exercises and further learning allows the reader to engage in the text in a meaningful manner More specifically the case study is not merely presented but revisited at the end of the chapters allowing the reader to ponder the example while learning new information and ultimately gain a potentially new perspective as she or he learns the outcome Guerda Nicolas Boston College [The Primordial Tradition in Contemporary Experience: Religion, science & psyche](#) John Rossner,1983      **Empowering Philosophy and Science with the Art of Love** John Raymaker,2006-05-16

Philosophy and Science are subject to conflicting interpretations such as the rules of positivism and analytic thought Bernard Lonergan and Gilles Deleuze have both assessed such issues in complementary fashion This book examines their arguments through the application of mathematical theories and Buddhist Christian ethics Using a structured analogy based on a spiritual genome Empowering Philosophy and Science with the Art of Love seeks to bridge the religious secularist divide exacerbated by postmodernism The goal is to empower the practitioners of philosophy and science by having them pay heed to the art of ethical virtue      **Perspectives on Science and Christian Faith** ,1997      *A Scientific Guide to the Integration of Man, Society, and Mankind* Sampooran Singh,1987      **The Primordial Tradition in Contemporary Experience** John Rossner,1983      **Digest; Review of Reviews Incorporating Literary Digest** ,1896      [Indian Journal of Youth Affairs](#) ,2005      *Where God and Science Meet* Patrick McNamara Ph.D.,2006-09-30 In this far reaching and novel work experts from across the nation and around the world present evolutionary neuroscientific and psychological approaches to explaining and exploring religion including the newest findings and evidence that have spurred the fledgling field of neurotheology Spiritual practices or awakenings have an impact on brain mind and personality These changes are being scientifically predicted and proven For example studies show Buddhist priests and Franciscan nuns at the peak of religious feelings show a functional change in the lobes of their brain Similar processes have been found in people with epilepsy which Hippocrates called the sacred disease New research is showing that not only does a person's brain activity change in particular areas while that person is experiencing religion epiphany but that such events can be created for some people even self professed

atheists by stimulating various parts of the brain It is not the goal of neurotheology to prove or disprove the existence of God but to understand the biology of spiritual experiences Such experiences seem to exist outside of time and space caused by the brain losing its perception of a boundary between physical body and outside world Understanding why this is the case could help explain other intangible events such as altered states of consciousness possession supposed alien visitations near death experiences and out of body events Understanding how and why these abilities evolved in the brain could also help us understand how religion contributes to the survival of the human race
