**Houses in Forster, Eliot and Woolf** Ria Banerjee, 2024-06-18 This book argues that E M Forster T S Eliot and Virginia Woolf engaged sustainedly with real and imagined places as sites of counter cultural politics. These writers used architectural images in diaries, essays, novels, poems, and plays to express their dissatisfaction with imperial London from the glorification of war to the erosion of local religious and linguistic traditions and rigidly gendered practices in domestic and public life. *Drafty Houses* shows that each author experienced post-war modernity as intimate spatial dislocation. In Egypt, Forster in the church; Eliot or in London's museums and streets; Woolf and traces connections between their personal experiences and lesser-read publications to theorize about the impact of places on their writerly perspectives. By closely examining each author's negotiation of space symbolic of Englishness, empire, and global politics, *Drafty Houses* considers the limits and the open-ended possibilities of liberal humanism, Christian conservatism, and feminist pacifism.

**The Architecture of Europe** Doreen Yarwood, 1991 The author narrates chronologically the architectural developments of the 19th and 20th centuries within present-day Europe.
