Oversharing Presentations Of Self In The Internet Age:

Oversharing: Presentations of Self in the Internet Age Ben Agger,2015-02-11 People overshare when they interact with others through the screens of computers and smartphones Oversharing means to divulge more of their inner feelings opinions and sexuality than they would in person or even over the phone Text messaging Facebooking tweeting camming blogging online dating and internet porn are vehicles of this oversharing which blurs the boundary between public and private life This book examines these presentations of self acknowledging that we are now much more public about what used to be private With this second edition Agger adds a new chapter on whether privacy is possible that addresses selfies job loss due to oversharing the surveillance state and examples of when the private should go public Families in the Digital Age Toni Hassan,2019-07-01 One of the most needed and grab you by the throat convincing books around today Steve Biddulph author of Raising Boys For parents who feel defeated by the powerful influence of social media in their children s lives this book will sympathise illuminate inspire and encourage us to believe there is another better way to live Hugh Mackay social researcher and bestselling author Smartphones and other interactive devices have turned up the volume on stress and are harming our mental and physical health They have shrunk the capacity of families to spend time together and when together they have increased conflicts Two thirds of Australian families experience tension or disagreement about screens at least three times a week In this confronting yet constructive guide on parenting in the digital age award winning journalist Toni Hassan catalogues the impacts of interactive devices on children and young people and offers ways out Rather than freeing us screens have made us dependent she says They have thinned relationships and thinned time for the things that ultimately nourish us Almost no part of children s lives are free from the anxiety created by commercial forces curating their moment to moment experiences Moving beyond the gloom Hassan offers lots of practical hope with ideas and tips for families to manage the digital age so that despite the challenges children and young people can thrive Illuminating How Identities, Stereotypes and Inequalities Matter through Gender Studies D. Nicole Farris,Mary Ann Davis,D'Lane R. Compton,2014-04-30 This collection highlights and extends contemporary women s and gender studies by presenting theoretical analyses and innovative research conceptualizations applications and methodologies via a diverse variety of popular in the classroom topics such as changing masculinities comedic dramatic portrayals of ethnicity and discrimination stigma and differences within mainstream media gender stereotypes intersections of gendered and sexual identities in social media and fundamental institutions These topics emphasize relevant issues and nuances within popular culture identities and perceptions and social problems and illustrate the breadth of gender studies and its applications while the diverse methodologies like historical comparisons ethnographic demographic and statistical analyses demonstrate its epistemology Each chapter remains solidly founded in gender theory while making significant innovative contributions to the overall field *Paradoxes of Digital Disengagement* Adi Kuntsman,Esperanza Miyake,2022-10-04 Life is increasingly governed and

mediated through digital and smart technologies platforms big data and algorithms However the reasons practices and impact of how the digital is used by different institutions are often deeply linked to social oppression and injustice Similarly the ability to resist these digital impositions is based on inequality and privilege Challenging the ways in which we are increasingly dependent on the digital this book raises a set of provocative and urgent questions in a world of compulsory digitality is there an opt out button Where when how why and to whom is it available Answering these questions has become even more relevant since the COVID 19 pandemic In response the book puts forward the concept of digital disengagement which is explored across six key areas of digitisation health citizenship education consumer culture labour and the environment Part I examines the difficulty of opting out of compulsory digitality in a world where most things are digital by default From health apps algorithmic decision making to learning analytics opting out comes with a set of troubling consequences Part II turns to several examples of disconnection and disengagement The chapters reveal how phenomena like digital detoxes time management apps and online green spaces are co opted by the very digital systems one is trying to resist The book critiques issues relating to digital surveillance algorithmic discrimination and biased tech corporatisation and monetisation of data exploitative digital labour digitalised self discipline and destruction of the environment As an interdisciplinary piece of work the book will be useful to any scholar and activist in Digital Internet and Social Media Studies Digital Sociology and Social Policy Digital Health Media Popular and Communication Studies Consumer culture and Environment Studies

Modern Socio-Technical Perspectives on Privacy Bart P. Knijnenburg, Xinru Page, Pamela Wisniewski, Heather Richter Lipford, Nicholas Proferes, Jennifer Romano, 2022-02-09 This open access book provides researchers and professionals with a foundational understanding of online privacy as well as insight into the socio technical privacy issues that are most pertinent to modern information systems covering several modern topics e g privacy in social media IoT and underexplored areas e g privacy accessibility privacy for vulnerable populations cross cultural privacy The book is structured in four parts which follow after an introduction to privacy on both a technical and social level Privacy Theory and Methods covers a range of theoretical lenses through which one can view the concept of privacy The chapters in this part relate to modern privacy phenomena thus emphasizing its relevance to our digital networked lives Next Domains covers a number of areas in which privacy concerns and implications are particularly salient including among others social media healthcare smart cities wearable IT and trackers The Audiences section then highlights audiences that have traditionally been ignored when creating privacy preserving experiences people from other non Western cultures people with accessibility needs adolescents and people who are underrepresented in terms of their race class gender or sexual identity religion or some combination Finally the chapters in Moving Forward outline approaches to privacy that move beyond one size fits all solutions explore ethical considerations and describe the regulatory landscape that governs privacy through laws and policies Perhaps even more so than the other chapters in this book these chapters are forward looking by using current

personalized ethical and legal approaches as a starting point for re conceptualizations of privacy to serve the modern technological landscape The book s primary goal is to inform IT students researchers and professionals about both the fundamentals of online privacy and the issues that are most pertinent to modern information systems Lecturers or teachers can assign parts of the book for a professional issues course IT professionals may select chapters covering domains and audiences relevant to their field of work as well as the Moving Forward chapters that cover ethical and legal aspects Academics who are interested in studying privacy or privacy related topics will find a broad introduction in both technical and social aspects

Augmented Communication Richard S. Pinner,2018-12-15 This book explores the ways in which handheld networked devices can be used to enhance and augment interpersonal communication The author examines in depth how the addition of visual and multimodal input access to online search engines and the inclusion of participants from distant geographical locations either synchronously or asynchronously affects our face to face interactions Presenting research data from several years of autoethnographic observation this balanced work reveals the consequences both positive and negative of technology dependent forms of discourse In doing so this sociolinguistic perspective fills a gap in the current literature and indicates possible future directions for the study of augmented communication It will appeal in particular to students and scholars of sociolinguistics applied linguistics and digital humanities

Voices from the South Amanda Du Preez,2018-12-01 This volume captures the status of digital humanities within the Arts in South Africa The primary research methodology falls within the broader tradition of phenomenological hermeneutics with a specific emphasis on visual hermeneutics Some of the tools utilised as part of the visual hermeneutic methods are geographic information system GIS mapping sensory ethnography and narrative pathways Digital humanities is positioned here as the necessary engagement of the humanities with the pervasive digital culture of the 21st century It is posited that the humanities and arts in particular have an essential role to play in unlocking meaning from scientific technological and data driven research The critical engagement with digital humanities is foregrounded throughout the volume as this crucial engagement works through images Images as understood within image studies are not merely another form of text but always more than text As such this book is the first of its kind in the South African scholarly landscape and notably also a first on the African continent Its targeted audience include both scholars within the humanities particularly in the arts and social sciences Researchers pursuing the new field of digital humanities may also find the ideas presented in this book significant Several of the chapters analyse the question of dealing with digital humanities through representations of the self as viewed from the Global South However it should be noted that self representation is not the only area covered in this volume The latter chapters of the book discuss innovative ways of implementing digital humanities strategies and methodologies for teaching and researching in South Africa
