Hall, 2001-08-16 Performing the American Frontier 1870-1906 examines how the American frontier was presented in theatrical productions during the critical period from the end of the Civil War to the beginning of cinema. In chronological fashion the book explores the post Civil War resurgence of interest in drama about the frontier which led to a host of action packed melodramas. From famous personalities such as Mark Twain and Buffalo Bill Cody to lesser known individuals such as native American playwright and actress Gowongo Mohawk Hall examines the plays, the players and the playwrights who helped to define the American westward migration in theatrical terms and covers the complete dramatic experience including scenery, performance and staging. The book demonstrates the extraordinary variety of subject matter and theatrical styles used to dramatize the frontier and places frontier drama within the context of its society by framing the productions with the contemporary debates on national policies *Monash University Law Review* Monash University. The designs serve to probe causal hypotheses about a wide variety of substantive issues in both basic and applied research. Each design is assessed in terms of four types of validity with special stress on internal validity. Although general conclusions are drawn about the strengths and limitations of each design, emphasis is also placed on the fact that the relevant threats to valid inference are specific to each research setting.
