**When Politicians Panicked** John Tamny,2021-03-30 The global economy was booming as 2020 dawned but within a few short months wreckage death and desperation borne of economic contraction were the new normal What happened In When Politicians Panicked economic commentator John Tamny tells the heart wrenching story of a time when politicians were tragically relieved of basic common sense in their response to the new coronavirus In March of 2020 the virus quickly became a major news item as political panic about it traveled around the world Even though anecdotal and market based evidence from the virus s epicenter indicated very low lethality politicians quickly imposed economy crushing lockdowns on the rather specious assumption that unemployment bankruptcy and starvation would somehow halt the virus s spread Tamny methodically dismantles the political consensus by showing how economic growth has long been the first and last answer to death and disease He then shows how politicians having mindlessly crushed a growing economy proceeded to double down on their mistakes by throwing taxpayer money at their shocking errors Throughout When Politicians Panicked Tamny makes a relentless case that free people don t just produce the wealth that renders today s killers yesterday s news They also produce crucial information about health threats that shine a light on that which threatens us Lockdowns suffocate economic progress but they also blind us to how we can progress as Tamny makes plain in what will go down as an essential history for anyone seeking to understand the coronavirus panic of 2020 *HTML* Gary B.
