Electric Vehicle Battery Management & Traction Control Mr. Amit Debnath, Dr. Aveek Chattopadhyaya, Dr. Suparna Biswas, 2025-02-19 Due to the increase in the cost of fuels and pollution alternative to conventional internal combustion engine powered vehicles is needed Electric vehicles are by many seen as the cars of the future as they are very efficient produce no local pollution are silent and can be used for power regulation by the grid operator In an electric vehicle various components like motor battery controllers are used While designing an electric vehicle the first and foremost component to
