 Jonathan A. Knee, 2021-09-07 An investment banker and professor explains what really drives success in the tech economy  
 Many think that they understand the secrets to the success of the biggest tech companies Facebook Amazon Apple Netflix  
 and Google It s the platform economy or network effects or some other magical power that makes their ultimate world  
 domination inevitable Investment banker and professor Jonathan Knee argues that the truth is much more complicated but  
 entrepreneurs and investors can understand what makes the giants work and learn the keys to lasting success in the digital  
 economy Knee explains what really makes the biggest tech companies work a surprisingly disparate portfolio of structural  
 advantages buttressed by shrewd acquisitions strong management lax regulation and often encouraging the myth that they  
 are invincible to discourage competitors By offering fresh insights into the true sources of strength and very real  
 vulnerabilities of these companies The Platform Delusion shows how investors existing businesses and startups might value  
 them compete with them and imitate them The Platform Delusion demystifies the success of the biggest digital companies in  
 sectors from retail to media to software to hardware offering readers what those companies don t want everyone else to  
 know Knee s insights are invaluable for entrepreneurs and investors in digital businesses seeking to understand what drives  
 resilience and profitability for the long term      **How Digital Communication Technology Shapes Markets** Swati
