Psychology Applied to Teaching Jack Snowman, Robert Frederick Biehler, 2006 Scaling up excellence is the key to creating a great organisation It's how a small enterprise expands without losing focus It's how a brilliant new idea or plan developed by the few goes on to be adopted by the many And in hard times and tough situations it's how pockets of smart new thinking overcome cultures of indifference or negativity An organisation that doesn't know how to scale up what is best within it won't achieve long term success Bestselling author Robert Sutton and his Stanford colleague Huggy Rao have devoted nearly a decade to uncovering what it takes to create and spread outstanding performance and in *Scaling Up Excellence* they share the fruits of their research Drawing on case studies that range from Silicon Valley enterprises to non profit organisations they provide crucial insights into corporate cultures both good and bad and offer a road map for

establishing and stimulating excellence In the process they show how to use premortems when making big decisions about change They reveal why seven is so often the magic number when it comes to team size They examine successful and unsuccessful quests for improvement in hospitals schools and elsewhere And they discuss when a single corporate mindset is best Catholicism and when local variation is preferable Buddhism Scaling Up Excellence is the first management book devoted to what is or should be a core priority for every organisation As such it is destined to become the standard bearer
