*The Complete Guide to Overcoming Traumatic Stress (ebook bundle)* Ann Wetmore, Claudia Herbert, John Marzillier, 2013-01-17

Terrible events are very hard to deal with. Those who go through a catastrophic life experience such as a car accident, assault, long-term abuse, an illness, or bereavement often feel permanently changed by the impact of what has happened. They become numb and shut off from those around them, or grief or guilt may constantly weigh them down. Memories of horrifying scenes may intrude unexpectedly during waking hours, while sleep may be disturbed by vivid unpleasant dreams. These two practical guides on trauma and how to cope with its aftermath are written by internationally recognised trauma experts.

*Overcoming Traumatic Stress* Claudia Herbert, Ann Wetmore

Based on cognitive behavioural therapy (CBT), this self-help guide offers a step-by-step programme to help you to understand your traumatic experience and how it's affecting you, and to start to rebuild your life. Traumatic stress responses, including Post Traumatic Stress Disorder (PTSD), result from a person's coping mechanisms having been completely overwhelmed by a terrible experience. Flashbacks may be so severe that sufferers may feel that they are losing their sanity and subsequently become ever more isolated in their distress. To overcome the effects of trauma it is necessary to change those reactions and begin to see events in a different light. This book demonstrates with practical advice and tested exercises how to find new effective ways of coping with and finally overcoming traumatic stress.

*To Hell and Back* John Marzillier

In this innovative and engaging book, world-renowned psychologist John Marzillier dovetails first-hand accounts from trauma sufferers with over 40 years of clinical practice to provide an honest human description of how trauma affects us at the time and also after the event. Whether discussing accounts of terrorist bombings, natural disasters, road accidents, or physical attacks, he looks at what these experiences do to us and offers practical and consoling advice for both sufferers and their loved ones on coping with the experience and developing resilience for the future.

*The Time Cure* Philip Zimbardo, Richard Sword, Rosemary Sword, 2012-10-02

In his landmark book *The Time Paradox*, internationally known psychologist Philip Zimbardo showed that we can transform the way we think about our past, present, and future to attain greater success in work and in life. Now in *The Time Cure*, Zimbardo has teamed with clinicians Richard and Rosemary Sword to reveal a groundbreaking approach that helps those living with post-traumatic stress disorder (PTSD) to shift their time perspectives and move beyond the traumatic past toward a more positive future. Time Perspective Therapy switches the focus from past to present, from negative to positive, clearing the pathway for the best yet to come: the future. It helps PTSD sufferers pull their feet out of the quicksand.

the majority of those who have experienced direct trauma or who have witnessed trauma will heal even persons who do not develop full blown post traumatic stress disorder or PTSD will experience a number of the symptoms of post traumatic stress flashbacks intrusive thoughts and memories hyperreactivity avoidance of persons places things and other triggers jumpiness and other symptoms Other persons have experienced lifelong traumas that are character changing many of these people suffer from a syndrome that researchers are just beginning to describe called complex PTSD This workbook was conceptualized as a resource for the survivor who experiences a few or many of the symptoms of PTSD or complex PTSD When we were first asked to develop this book we asked colleagues to share exercises that might help survivors do the work themselves We also began to focus on the exercises we use in our own clinical work Indeed our clinical experience is what makes us qualified to author this book Both of us are primarily grunt workers in the trenches of the field of trauma We have met with many clients on a regular basis for both short term and long term therapy That extensive experience allows us to say that though the road of healing may be long and difficult healing can and does happen In this workbook you will have the opportunity to complete numerous exercises that will give you insight into your symptoms your beliefs your behaviors and your feelings about the trauma or traumas you endured Many of these exercises can be completed in the book itself so that the book becomes a record of your recovery from trauma as well as a resource for you to turn to again and again throughout that recovery Other exercises can be completed in a separate notebook or journal which can also be used to expand upon the exercises you complete in the book or to record your other thoughts and feelings along your journey to healing We hope that this book will help you on that journey
