Written by a bestselling author with the help of students, practice staff and academics from a variety of higher education institutions, this guide for prospective and current student paramedics is the essential resource to support your journey through the excitement, challenges and realities of being a student paramedic on a higher education programme. This is a must buy for any student from school leaver to the mature candidate who is thinking of studying to be a Paramedic. The book comprehensively addresses everything from where and how to apply, unpicking the complex picture of fees and funding to the realities of what to expect when you get to University and what it's like on placement. With valuable contributions from current students, academics and educators, this book explains everything you need to know and might not have thought you needed to know before you apply. Mark Nevins, Senior Lecturer, Teeside University, UK and NMC Registered Adult Nurse and HCPC Registered Paramedic. I would consider this book as required reading for anyone considering embarking on a career as a paramedic. It is honest, informative and true to life. I liked the way that all aspects of student life were covered from applications to studying and placements and finally being out in the world. This job isn't what a lot of people seem to think it is, but Amanda has gone to great lengths to myth bust. This book shows a depth and consideration that all prospective paramedic students should appreciate. It is clear that a great deal of effort has gone into this survival guide. Mark Young, Paramedic, covering a number of areas that are part of the institutional and ambulance Trusts inductions. It is useful to note that the Survival Guide also recognises the differences the student paramedic experiences when compared to other students in universities. This means that the Survival Guide can act as an aide memoire that is available when those difficult questions come up that need an immediate answer that can allay fears and anxieties and signpost the students to the places they can get support. This aspect is helped by the shared experiences from past and present students and practitioners who act as mentors and paramedic educators to the students. This book has been a long time coming and will, based on my experience, help the student to have a better transition towards their future professional role. Lizzie Ryan, Education Business Manager and Clinical Training Manager East at South Western Ambulance Service NHS Foundation Trust, UK, also Lecturer at Bournemouth University, UK and Plymouth University, UK and the Open University, UK.
