volume II Sarah E. DeMartini, Martin I. Gallegos, Lauren Altenburger, Nicola Carone, 2024-12-12 Significant contextual changes over the past few decades have suggested that mother focused models of science do not accurately capture fathers involvement as caregivers and coparents Extant research such as the study from Cabrera and their team in 2018 has debunked myths that paint fathers solely as secondary caregivers hands off parents and absent fathers On the contrary recent studies have suggested that fathers exert significant direct and indirect influences on child development and partner relationship quality via coparenting how parents work with or against each other to care for their children e g the studies from Farr Kuo and their team in 2017 McHale and their team in 2019 Murphy and their team in 2017 and Schoppe Sullivan Fagan in 2020 According to McHale and their team s research in 2019 coparenting has been of interest to family systems researchers clinicians as well as intervention and preventionists due to this construct capturing whole family dynamics While much of coparenting literature has focused on gender differences in the roles and involvement of opposite sex coparents such as the research from Carone Lingiardi in 2022 However we know less about coparenting in alternative family structures particularly gay father coparents as mothers are heavily emphasized in extant literature *International Parental Child Abduction and the Law* Geraldine Carney, 2024-06-13 Japan has faced widespread scrutiny for failing to properly address international parental child abduction involving its citizens This book examines how and why Japan has come to have this

tarnished image its response and how it might manage these disputes in the future In particular the book explores how Japan engages with international legal frameworks to manage international parental child abduction and what this means in reality for Japanese people and others who come under its wide umbrella A focus of this examination is how the key international treaty the Hague Convention of 25 October 1980 on the Civil Aspects of International Child Abduction has fared since being introduced in Japan in 2014 Case studies of parental child abduction involving Japan are used throughout to illustrate the legal and social concepts discussed in the book The struggles of both abducting and left behind parents across fluid international borders reveal seismic social and philosophical shifts in Japan that continue to shape its legal landscape This book will be a useful resource for students of Japanese Studies Sociolegal Studies Comparative Law and International Law
