Herger, 2019-07-26 How the radical disruption of the auto industry affects you and how you can prepare for the soon to be new normal The combined effect of autonomous driving electric vehicles and the sharing economy is on the verge of changing the auto industry all within the next decade And this tech economics revolution will touch virtually every industry What exactly will change Jobs Demand for commercial vehicle drivers car dealers mechanics doctors and many other professions will shrink Laws Manually driving cars will be forbidden and car ownership will be almost nonexistent Housing Prices will drop and cities and towns will be planned differently Healthcare Infrastructure will shrink as traffic accidents dramatically decline Global trade China will become the world's biggest automotive exporter The Last Driver's License
