Romances with Schools John I. Goodlad, 2016-07-18 John I Goodlad has been an unflagging voice for humanistic ideals in education for more than six decades and has helped reframe the modern discourse on the role and function of schools For Goodlad the goal of public education is to help children become free and full participants in a democratic society by instilling them with a love of learning and a sense of civic responsibility goals that are incompatible with our present system of schooling that teaches to standardized tests In Romances with Schools John Goodlad steps out from behind the public persona of distinguished scholar and advocate for public schooling to offer a moving personal account of a life devoted to educating the young He deftly interweaves fascinating personal details with reflections on many of the larger issues in education that he has explored throughout his career John s early encounters with formal schooling began just before the Great Depression in Canada with the humble North Star School From there we are taken through sixty plus years in education starting with John s first teaching job as the sole instructor of a one room schoolhouse through his years as an education activist dean of the UCLA Graduate School of Education and national voice for educational renewal Along the way he treats us to vivid characterizations of the men women and above all children who shaped him as a person and inspired his thinking on education Romances with Schools is both a poignant memoir and a persuasive argument for the need to renew public education to fit the demands of a free society Stephen Goodlad John s son has written a moving Prologue to the book that provides behind the scenes insight into John s life An Epilogue by Roger

Soder a long time colleague places John s work of school renewal in the context of political change **I Think I Need to Talk to a Doctor** Jason J. Ventre,2012-04 I Think I Need to Talk to a Doctor tells author Jason Ventre s life story so far anyway He shares his history for many reasons but chief among them is the need to explain his life experiences so that others may try to avoid having them Diagnosed with bipolar syndrome he talks honestly about the repercussions of his decisions mostly bad ones when considered on a scale from moderate to devastating He still deals with repercussions from those choices on a daily basis From describing the funny challenges of childhood and trying to figure out what mattered and what didn t to recalling his failed relationships Ventre paints an honest picture of a boy who was just different Rather than trying to change who he was he just went with whatever he felt with unforgettable results Now he takes those results and unapologetically turns them into lessons Ventre reminds us that we all have pasts full of mistakes although it might be a great thought to say that we can learn from our past history has shown us that we re more likely to just think that we ve learned from our mistakes as we continue to make them I Think I Need to Talk to a Doctor shows that sometimes laughing at our irrational decisions might be the only way to grow from them and hopefully teach others not to travel down the same road of lost maturity **Women of China** ,1998 **Rocked by Romance** Carolyn Carpan,2004-04-30 Offers a guide to teenage romance fiction which focuses on themes of dating first love and sexuality and includes annotations for each book
