The End of College Football Nathan Kalman-Lamb, Derek Silva, 2024-10-04 In this book Nathan Kalman Lamb and Derek Silva offer an existential challenge to one of America's favorite pastimes college football Drawing on twenty five in depth interviews with former players from some of the country's most prominent college football teams Kalman Lamb and Silva explore how football is both predicated on a foundation of coercion and suffused with racialized harm and exploitation Through the stories of those who lived it the authors examine the ways in which college football must be understood as a site of harm revealing how players are systematically denied the economic value they produce for universities and offered only a devalued education in return By illuminating the plantation dynamics that make college football a particularly racialized form of exploitation the book makes legible the forms of physical sacrifice that are required the ultimate cost in health and well being and the coercion that drives players into the sport and compels them to endure such abusive conditions *Mobile Influence* Chuck Martin, 2025-08-22 The explosion of mobile access across the globe has shaken the foundations of the traditional sales funnel and businesses are scrambling to adapt and find new ways to tap into the market For all their effort many have failed to realize that the issue is not how to reach the customer where they are but where they are going and their mindset at the moment With the staggering growth in the use of mobile technology as both product research and purchase point businesses have yet to fully understand the important role mobile devices play in the basic structure of the traditional shopping model and the new importance on linking behavior with location With the death of the traditional sales funnel comes author Chuck Martin's new model the Mobile Shopping Life Cycle Based on the author's in depth research Martin has identified the six specific moments in the timeline of the sale which marketers must target effectively in order to reach the mobile buyer From location based marketing to mobile payment systems Martin's model gives marketers access to the tools necessary to build a new sales framework that properly addresses the future of the market *TV Guide*, 1999 The Michigan Journal, 2002 **The Official Xbox Magazine**, 2007 Failing Universities Howard Karger, David Stoesz, 2024-11-28 Examines American higher education and proposes a forward looking agenda for structural reform that is less expensive and more educationally sound than the current marketized model **The Role of the Media in Promoting and Reducing Tobacco Use** Ronald M. Davis, 2008 **Tobacco Goes to College** Elizabeth Crisp Crawford, 2014-03-24 This is the first book to document the history of cigarette advertising on college and university campuses From the 1920s to the 1960s such advertisers had a strong financial grip on student media and thus a degree of financial power over colleges and universities across the nation The tobacco industry's strength was so great many doubted whether student newspapers and other campus media could survive without them When the Tobacco Institute the organization that governed the industry decided to pull their advertising in June of 1963 nearly 2 000 student publications needed to recover up to 50 percent of their newly lost revenue Although student newspapers are the main focus of this book tobacco's presence on campus permeated

more than just the student paper Cigarette brands were promoted at football games on campus radio and through campus representatives and promotional items were placed on campus in locations such as university stores and the student union
