Youth and Internet Addiction in China Trent Bax,2013-08-15 A form of electronic opium is how some people have characterised young people's internet use in China. The problem of internet addiction is seen by some parents as so severe that they have sought psychiatric help for their children. This book, which is based on extensive original research including discussions with psychiatrists, parents and internet addicted young people, explores the conflicting attitudes which this issue reveals. It contrasts the views of young people who see internet use especially gaming as a welcome escape from the dehumanising pressures of contemporary Chinese life with the approach of those such as their parents who medicalise internet overuse and insist that working hard for good school grades is the correct way to progress. The author shows that these contrasting attitudes lead to battles which are often fierce and violent and argues that the greater problem may in fact lie with parents and other authority figures who misguidedly apply high pressure to enforce young people to conform to the empty values of a modern dehumanised consumer oriented society.

Decoding the New Consumer Mind Kit Yarrow,2014-03-18

Take a glimpse into the mind of the modern consumer. A decade of swift and stunning change has profoundly affected the psychology of how, when and why we shop and buy. In *Decoding the New Consumer Mind*, award-winning consumer psychologist Kit Yarrow shares surprising insights about the new motivations and behaviors of shoppers taking marketers where they need to be today into the deeply psychological and often unconscious relationships that people have with products, retailers, marketing communications and brands. Drawing on hundreds of consumer interviews and shop alongs, Yarrow reveals the trends that define our transformed behavior. For example, when we shop, we show greater emotionality, hunting for more intense experiences and seeking relief and distraction online. A profound sense of isolation and individualism shapes the way we express ourselves and connect with brands and retailers. Neurological research even suggests that our brains are rewired, altering what we crave, how we think and where our attention goes. *Decoding the New Consumer Mind* provides marketers with practical ways to tap into this new consumer psychology and Yarrow shows how to combine technology and innovation to enhance brand image, win love and loyalty through authenticity and integrity, put the consumer's needs and preferences front and center and deliver the most emotionally intense yet uncomplicated experience possible. Armed with Yarrow's strategies, marketers will be able to connect more effectively with consumers, driving profit and success across the organization.
