George Gilder, 2018-07-17 A FINANCIAL TIMES BOOK OF THE MONTH FROM THE WALL STREET JOURNAL Nothing Mr Gilder says or writes is ever delivered at anything less than the fullest philosophical decibel Mr Gilder sounds less like a tech guru than a poet and his words tumble out in a romantic cascade Google s algorithms assume the world s future is nothing more than the next moment in a random process George Gilder shows how deep this assumption goes what motivates people to make it and why it s wrong the future depends on human action Peter Thiel founder of PayPal and Palantir Technologies and author of Zero to One Notes on Startups or How to Build the Future The Age of Google built on big data and machine intelligence has been an awesome era But it s coming to an end In Life after Google George Gilder the peerless visionary of technology and culture explains why Silicon Valley is suffering a nervous breakdown and what to expect as the post Google age dawns Google s astonishing ability to search and sort attracts the entire world to its search engine and countless other goodies videos maps email calendars And everything it offers is free or so it seems Instead of paying directly users submit to advertising The system of aggregate and advertise works for a while if you control an empire of data centers but a market without prices strangles entrepreneurship and turns the Internet into a wasteland of ads The crisis is not just economic Even as advances in artificial intelligence induce delusions of omnipotence and transcendence Silicon Valley has pretty much given up on security The Internet firewalls supposedly protecting all those passwords and personal information have proved hopelessly permeable The crisis cannot be solved within the current computer and network architecture The future lies with the cryptocosm the new architecture of the blockchain and its derivatives Enabling cryptocurrencies such as bitcoin and ether NEO and Hashgraph it will provide the Internet a secure global payments system ending the aggregate and advertise Age of Google Silicon Valley long dominated by a few giants faces a great unbundling which will disperse computer power and commerce and transform the economy and the Internet Life after Google is almost here For fans of Wealth and Poverty Knowledge and Power and The Scandal of Money **Take Control of Backing Up Your Mac, 5th Edition** Joe

Kissell, 2025-12-19 Set up a rock solid backup strategy so that you can restore quickly and completely no matter what catastrophe arises Version 5.2 updated December 19 2025 Joe Kissell provides the advice you need to create a Mac backup strategy that protects your data and enables quick recovery He compares backup software services and media to help you

make the best choices You'll learn to set up test and maintain backups plus how to restore files after a calamity Creating and maintaining a solid backup plan is essential to anyone who uses a Mac in order to prevent the loss of important data if disaster strikes whether through hardware or software failure theft human error or other mishap In Take Control of Backing Up Your Mac Fifth Edition tech expert Joe Kissell explains how to design a sensible backup strategy choose and configure the best backup hardware and software for your needs and understand how to make your backups as painless as possible His advice is equally useful to those who have never had a backup system and those whose backup systems are in need of an update The book delves into the challenges presented by recent versions of macOS M series Macs and the ever changing landscape of Mac backup hardware software and cloud services It explains what you need to know about bootable and non bootable duplicates backup media and disk formats as well as recent changes in Time Machine and the weird world of APFS snapshots It also shows you how to include in your backups files and folders that are stored in the cloud even if there's no local copy of them Using this book you'll learn how to Design or update the ideal backup system If you're starting from scratch you'll find all the information necessary to assemble a reliable and easy to use backup system If you're updating an existing system you'll learn about what's new in hardware software and online services that might affect the way you back up your Mac in the future Choose backup software Apple's Time Machine is both free and easy to use but it's not the best choice for everyone and even if you do use Time Machine you'll certainly want to supplement it with other tools You'll learn about key features to look for in a backup app and find tips on using several popular tools You'll also discover the pros and cons of cloud backup services and get help choosing the right one An online appendix covers dozens of apps and services Shop for hardware Depending on your needs and goals you may need one or more external SSDs or hard drives but the range of options sizes interfaces speeds and more can be bewildering Joe helps you find the best backup hardware whether it's individual SSDs or hard drives RAID's NAS devices or other options Make and maintain backups Once you've selected hardware and software you'll need to know how to make your first backup set up your backups to run unattended and test them regularly to make sure they're working as they should This includes both versioned backups which contain old file versions and deleted files and for some users bootable or non bootable data only clones And you'll learn about strategies for keeping extra backups offsite Operate Time Machine If you choose Time Machine for versioned backups you'll learn how to back up and restore individual files and even an entire disk You'll also discover why and how to encrypt Time Machine backups how APFS snapshots work inside and outside Time Machine and what to do if Time Machine misbehaves Deal with unusual backup needs If you deal with exceptionally large files such as audio and video files spend a lot of time on the road away from your usual backup hardware run Windows on your Mac or rely on cloud services to store essential data you'll want to take extra or different steps to make sure everything is safely backed up You'll also learn various approaches to backing up and restoring data from Apple's Notes app Manage your media What happens when a backup drive fills up or becomes so

old that you worry about its future reliability What if you want to archive older files for posterity but not necessarily maintain them as part of your daily backups Joe explains how to deal with media management tasks such as these Recover lost data Backing up data can be easy but restoring it is often more challenging When you discover that data is missing whether due to a disk error theft or a simple mistake you need to know the exact steps needed to recover it and get back to work as soon as possible
