**The Glitches within the Human Race** Stuart Miller, 2022-01-05 I provide a deep analytical and philosophical explanation of why certain cultural and social issues exist. With each topic, I discuss what it is, give examples for each, and break down each example, providing more detail of just some of the possible reasons as to why people do them. Possible mentalities I also provide some of my own experiences and everything discussed in this book I have personally witnessed and/or have gone through. I included the following situations based on personal experience and/or witnessing them, with some online research to support certain issues. My perception, perspective, and mentality on various issues that affects everyone to some degree. Quotes that further support certain chapter topics. Philosophies, analogies, and comparisons to provide better contextual clarification on certain issues. Detailed breakdown of the examples provided within each chapter. Explanation of what it will take to help fix each of these issues. Some of the many possible reasons why people behave the way they do and some of the possible motives, intentions, and life experiences from both sides: person doing the behavior and the person receiving the treatment. Solutions to all the topics that are discussed, changes that we need to make with how we

think and act towards others Furthermore I provide much thought provoking material to challenge the way we think and view society in ways you might not have considered I discuss many unhealthy mentalities and behaviors which is damaging to people on a much larger scale and it s having a much greater influence on others both directly and indirectly in ways that we do not even realize This book is something the whole world needs to read and here is why Providing solutions to some of the biggest cultural and social issues which have existed for far too long The way the world is with how we treat others is badly broken and some of the solutions are in this book which the world needs the solutions I provide We do the same or similar behaviors towards others expecting different results and this is not working at all We need to step outside our comfort zone by changing their behaviors in ways we re not used to doing to get something you ve never had you must first do something that you ve never done The world needs to be less close minded and use less tunnel vision the mind is like a parachute it can t work if it s not opened I see the world differently and the purpose of this book is to share different ways of looking at situations and the numerous possibilities to take into consideration I share my perception and perspective viewpoint mentality and some of my own philosophies I provide a more in depth perspective of looking at a variety of life situations and the possible reasons as to why people choose to treat others the way they do I think a lot of people might find this content in general interesting beneficial inspiring and or even life changing
