*Important EV Charger Installation* Ryan Jacob, 2022  
Installing your own electric vehicle charger (EVC) can be intimidating if you are not an electrician or a skilled DIY expert. If this is your first EV charger, where do you start? It is possible to do it yourself. How much will it cost? I'll guide you through how to install an EV charger and answer all your questions. In no time, you'll be set up. You can't install EV chargers unless you are an electrician who has experience. Hire an expert and certified installer. Although it might be more costly in the short term, this is essential for ensuring your charger is correctly and safely installed. If the charger is not installed by a licensed electrician, some EV charging stations will lose their warranty. This is something you don't want.
