The Art And Science Of Mental Health

Nursing: Principles And Practice Norman, Ian, Rycie, Iain, 2013-04-01 A comprehensive core student text which combines theoretical foundations of mental health nursing with practical skills and interventions

[The Handbook of Community Mental Health Nursing](#) Ben Hannigan, Michael Coffey (RMN.), 2003 This handbook brings together authoritative contributions from leading mental health researchers, educators and practitioners to provide a comprehensive text for community mental health nurses in training and practice. In thirty three chapters it covers a wide range of topics from the history of the profession to current approaches to specific client groups organised around three linked themes professional context, practice issues, education and research. Each chapter includes a summary of key points and suggestions for further reading and also includes useful appendices listing key professional and voluntary organisations, journals, Internet and mailing lists. The handbook reflects the diversity and scope of the role of the CMHN and recognises the multidisciplinary and service user context in which nurses work. It is an essential text for CMHNs and mental health nurse educators and offers a useful source of reference for allied professionals

[Fundamentals of Mental Health Nursing](#) Victoria Clarke, Andrew Walsh, 2009-02-05 In order to provide sound person centred care mental health nursing students need a thorough understanding of theory alongside the ability to translate this knowledge into practice. It can be difficult to apply ideas from the classroom and books when learning how to work with mental health service users for the first time. That is why the theoretical aspects of this book are presented alongside realistic accounts of nursing practice. Fundamentals of Mental Health Nursing is a case based and service user centred textbook for mental health nursing students. Designed to support students throughout their pre registration studies the text covers the essential knowledge required to provide high quality nursing care. Contributions from real service users and cases of fictional clients are explored in detail to provide excellent transferable skills for practice. Dedicated chapters explore fundamental nursing skills and mental health law before providing a case based exploration of the areas and subjects that will be encountered by students in university and placement. Practice based chapters introduce students to the needs of a diverse range of fictional clients and explain how the skills of communication, assessment, care planning and monitoring can be applied. Each chapter provides a sample care plan explaining why and how clinical decisions are made so that students can develop their own skills and practice. The text opens with clear advice to help students succeed in their studies and concludes with a wealth of practical and thoughtful advice on becoming a professional and getting that first job. Online Resource Centre Twenty one video clips of fictional service users demonstrate the application of theory and

prepare students for real nursing practice Quizzes scenarios and a range of activities help students to apply their learning Interactive glossary explains terminology and jargon Sample CV s and self awareness exercises aid professional development
